Owner’s Manual

Take the time to read through this owner’s manual. Familiarity with installation and operation procedures will help you obtain the best Performance from your new DVD-receiver.
Important Safeguards

• Using the device at temperature below -10°C may cause the breakage of the device.

BEFORE USING PLEASE HEAT UP THE PASSENGER COMPARTMENT TO THE
RECOMMENDED TEMPERATURE!

• Read carefully through this manual to familiarize you with this high-quality sound
system.

• Disconnect the vehicle's negative battery terminal while mounting and connecting the
unit.

• When replacing the fuse, be sure to use one with an identical amperage rating. Using a
fuse with a higher amperage rating may cause serious damage to the unit.

• DO NOT attempt to disassemble the unit. Laser beams from the optical pickup are
dangerous to the eyes.

• Make sure that pins or other foreign objects do not get inside the unit; they may cause
malfunctions, or create safety hazards such as electrical shock or laser beam exposure.

• If you have parked the car for a long time in hot or cold weather, wait until the
temperature in the car becomes normal before operating the unit.

• DO NOT open covers and do not repair yourself. Consult the dealer or an experienced
technician for help.

• Make sure you disconnect the power supply and aerial if you will not use the system for
a long period or during a thunderstorm.

• Make sure you disconnect the power supply if the system appears to be working
incorrectly, (For example: making unusual sounds, smelling strange, emitting smokes
from inside or liquid having gotten inside it) Have a qualified technician check the
system.

• The unit is designed for negative terminal of the battery, which is connected to the
vehicle metal. Please confirm it before installation.

• Do not allow the speaker wires to be shorted together when the unit is switched on.
Otherwise it may overload or burn out the power amplifier.

• Do not install the detachable panel before connecting the wire.

• Don't remove the detachable panel when encoding.

- Front Panel Protection Case
- User Manual
- Trim Ring
- Power Cable

Note:
Product image may vary from the actual delivery.
Installation/Un-Installation

First complete the electrical connections, and then check them for correctness.

Installation

This unit can be installed in any dashboard having an opening as shown on the picture. The dashboard should be 4.75 – 5.56 mm thick in order to be able to support the unit.

1. Insert mounting collar into the dashboard, and bend the mounting tabs out with a screwdriver.
   Make sure that lock lever (※) is flush with the mounting collar (not projecting outward).

2. Secure the rear of the unit.
   After fixing mounting bolt and power connector, fix the rear of the unit to the car body by rubber cushion.

3. Insert trim plate.
   When you prepare to insert trim plate, please check its direction. Once it was up side down, it cannot be fixed.

Un-installation

Remove Trim Ring and insert Release Keys into left and right side-end holes as shown in below picture and pull the unit out of the dashboard.
Make sure you have good chassis ground. A good ground connection will eliminate most electrical noise problems. A good chassis ground requires a tight connection to the vehicle's metal chassis. The area around the ground connection should be clean, bare metal without rust, paint, plastic, dust, or dirt for a good electrical connection.

Caution: Do not interchange the connection of the wiring!!! For some car models you may need to modify wiring of the supplied power cord. Contact your authorized car dealer before installing this unit.

Using the ISO Connector
1. If your car is equipped with the ISO connector, then connect the ISO connectors as illustrated.
2. For connections without the ISO connectors, check the wiring in the vehicle carefully before connecting, incorrect connection may cause serious damage to this unit.
3. Cut the connector; connect the colored leads of the power cord to the car battery as shown in the color code table below for speaker and power cable connections.

NOTE: When turn off the power, the unit will switch to standby mode unless cut the ACC power. The power light will continue lighting.
1. POWER
Power on or off.

2. MODE button
Press it to select the mode: Radio, DISC (if there is a disc in unit), USB (if there is a USB device in the unit), CARD (if there is a SD/MMC card in the unit), TV (for TV model) and AV IN.

3. PLAY/PAUSE button
In DVD mode, press it to pause playback, press again to resume.

4. Mute button
\(\hat{\text{X}}\): Short press this button to mute the volume output, press it again to resume volume.

5. BAND/ RDM (Only for BT)
In Radio mode, press to change radio band in sequence of FM1 \(\rightarrow\) FM2 \(\rightarrow\) FM3 \(\rightarrow\) AM1 \(\rightarrow\) AM2
In DVD mode, press to play randomly.

6. Cursor buttons
Use the \(\uparrow\) buttons to select the menu item. The title, track or to show next frame.

7. MENU button
Press it to show main menu, in DVD mode, long press it to enter TITLE MENU (Enable only if the DVD disc with title menu).

8. SUBTITLE button
Press it to select the subtitle language (Available only if the disc with subtitle function).

9. Cursor \(\downarrow\) buttons
Use the \(\downarrow\) buttons to select the menu item. the title, track or to show next frame.

10. ENTER button
Press it to confirm selection or setting.
11. Cursor •buttons
Use the • buttons to select the menu item. The title, track or to show next frame.

12. SETUP button
In DVD mode press it to enter the setup menu.

13. EJECT button
Press it to eject the disc.

14. Cursor ▼ buttons
Use the ▼ buttons to select the menu item. the title, track or to show next frame.

15. ANGLE button (Only for BT)
In DVD mode, press it repeatedly to change the viewing angle (Available only with a recorded DVD file or DVD disc that has this function).

16. INT button (Only for BT)
Press it to activate the intro function. You can play the beginning of every track for 10 seconds in sequence.

17. P.SCN/ RPT
In SD CARD/ USB mode, press to repeat REP 1 => REP DIR => REP ALL
In DVD mode, press to start repeat REP OFF=>REP Chapter=>REP Title=>REP Off.
In Radio mode: PS (Preset Scan): Press to scan all preset stations in the memory of the current band and stay on each memory stations for about 5 seconds.
AS (Auto Save): Long press to save the stations with good reception automatically.

18. STEREO/MONO (PTY only for BT)
Press STEREO button to select STEREO or MONO.

19. VOL+ button
Press to increase volume level.

20. A-B/ZOOM button
During playback, press it at the starting point of section you want to repeat(A), press this button again at the ending point of the section you want to repeat (B), section A-B repeating starts. Press it again to cancel the A-B repeat function.
Press it and hold for two seconds in DVD mode to zoom the image in or out in the sequence of ZOOM 2-> ZOOM 3-> ZOOM 4-> ZOOM 1/2-> ZOOM 1/3-> ZOOM 1/4.

21. LOUD
Press to set LOUD on or OFF.

22. ▼~ / seek- button
In DVD mode, Press ▼~ button to skip to the previous track. Press and hold ▼~ button for two seconds to activate fast reverse (REW) search in a track.
In RADIO mode, press ▼~ button to start searching automatic, press and hold for two seconds to start manual searching. ▼~ button Frequency down.

23. SEL button
Press it to enter the SOUND SETTING menu, and press Cursor UP/DN buttons to choose an item and press cursor left/right buttons to set the item. Press SEL button again to exit the menu.

24. ▼~ / seek + button
In DVD mode, Press ▼~ button to skip to the next track. Press and hold ▼~ button for two seconds to activate fast forward (FF) search in a track.
In RADIO mode, press ▼~ button to start searching automatic, press and hold for two seconds to start manual searching ▼~ button Frequency up.

25. STOP/PBC button
Press it to Stop playback from the current position, press it again to final stop to the very beginning. Press PLAY/PAUSE button to play.
Press and hold for two seconds to set PBC on/ off in VCD mode.
26. **OSD button**
In DVD mode press it to enter the OSD menu, press and hold for 2 seconds to set video setup.
(RED /GREEN /BLUE /BRIGHT / CONTRAST /SHARP /COLOR RESET /BACK)

27. **VOL- button**
Press to decrease volume level.

28. **AUDIO/GOTO button**
In DVD mode press it to select the audio language.
In VCD mode, press it to select the sound track in the sequence of MONO L =>MONO R =>STEREO.
Go to: in DVD mode, press and hold for 2 seconds to show TIME SEARCH menu, select number and confirm to go to certain position directly. When press • button to enter TITLE/CHAPTER selection mode, select number and confirm to go to certain TITLE or CHAPTER position directly.

29. **Digit 0-9 buttons**
In radio mode, select 1-6 the desired band; In DVD mode, select track.

30. **OPEN/TILT button** (Option without function)

31. **DUAL button** (Option without function)

**Noted:** The RC is the universal and full-featured. Some options are available with the corresponding model.

---

**Remove battery**

**Note:**
- The distance may vary according to the brightness of ambient light.
- If the remote is not used for an extended period of time, remove the battery to prevent possible damage from battery leakage and corrosion.
- Do not place any objects between the remote control unit and the sensor on the unit.
- Do not drop the remote control onto the floor; it will damage it beyond repair.
- Do not use the remote control unit, while simultaneously operating the remote control unit of any other equipment; they may interfere resulting in improper operation.
- The battery normally last for about one year although depending how often the remote control is used. If the remote control unit isn’t working even when it is operated near the unit, replace the battery with a new battery of the same make and use only a lithium cell battery type: CR2025 (3V).
- Dispose empty batteries in accordance with your local governmental regulations.
- Do not short-circuit, disassemble, heat or dispose of fire or flames the battery.
- Keep the battery out of reach of children, should the battery be swallowed, immediately consult a doctor.
Main Menu
The best way to discover the program is to explore each screen in detail, and to find out how to move from one to another. Read this chapter for a guided tour.
Unit starts by displaying the Main menu.
This is the root of the screen hierarchy, you can simply take knowledge of the features.

General Operation
Reset the unit
Operating the unit for the first time or after replacing the car battery, you must reset the unit. Press OPEN button on the panel to open the panel and press RESET button to restore the unit to its original factory settings.
Power on or off
Press any button (except open button) to turn on the unit. Long press POWER button on front panel or press power button on the RC to power off the unit.
Mode setting
Press the MODE button repeatedly to switch between inputs:

RADIO → DISC* → USB* → SD* → Bluetooth* → TV → AV IN → RADIO

(* available only if there is media device in disc, SD, USB slot and Bluetooth connection is OK.)
Volume/OK
Adjust the volume level by turning the VOL knob on the panel clockwise to increase or counterclockwise to decrease or pressing VOL+ or VOL- on the RC to increase or decrease the volume.
In any mode, rotate VOL knob to select the file you want to playback, press the OK button to enter the next menu.
Sound Adjustments
Press the SEL button on the RC or front panel to select the audio settings consisting of following items:

EQ: Select the digital sound effect FLAT → CLASSIC → POP → ROCK → USER.
BASS: Bass up/down.
TREBLE: Treble up/down.
BALANCE: Left/right Balance control.
FAADER: Front/rear Fader control.
BEEP: Keypad sound setting.
LOUDNESS: Set the loudness on or off.
Rotate Volume knob on the front panel or press up/down arrow on the RC to select any items
and then press OK button on the panel or Enter button on the RC to confirm the item.
Rotate Volume knob or press LEFT/RIGHT buttons on the RC to adjust the audio setting. Press
OK button on the panel or Enter button on the RC to confirm and again press SEL button return
to current mode.

Note:
✧ If the unit is turned off, all the settings of each mode will be saved.
✧ If cutting off battery power or resetting the unit, all the settings will return to factory default
settings.
✧ When EQ is set to any mode (except USER mode), Bass and Treble are not adjustable.

Mute function
Press POWER/MUTE button on the panel or MUTE button on the RC to turn the sound off. Press
it again to resume the volume.

Loudness
Press LOUD button on RC or long press the LOUD button on the front panel to set loudness or
off.

EQ
Short press the EQ button on the panel to choose sound effect in the sequence of FLAT→
CLASSIC→POP→ROCK→EQ OFF.

Menu
Press Menu button to show main menu. In DVD mode press and hold for two seconds to enter
title menu (Enable only if the DVD disc with title menu).

Setup
Press SETUP button on the RC or SETTING icon on the main menu to go to setup pages.
1) Rotate Volume knob on the front panel or press up/down arrow on the RC to select any items
and then press OK button on the panel or Enter button on the RC to confirm the item
2) Rotate Volume knob or press LEFT/RIGHT buttons on the RC to adjust the audio setting.
Press OK button on the panel or Enter button on the RC to confirm.
3) Press SETUP button again return to current mode.

[6] **TV TYPE:**
Set TFT screen mode to the correct ratio:
Three screen ratio modes are available, Normal/PS (4:3 Pan Scan), Normal/LB (4:3 Letterbox) and Wide (16:9). Different disc formats will display different images depending this setting and the screen size used.

[7] **NTSC/ PAL:**
Select this menu item to set up your preferred video output format. PAL is commonly used in Europe, NTSC is commonly used in the USA and Japan.

[8] **DEFAULT:**
Factory reset. Set all values to Factory default values including memory and preset stations.
AV IN
Connect an optional AV cable to your external AV device (such as a video camera), then press the MODE button to switch to the AV mode. Note: If there is no external video input, the TFT displays “NO SIGNAL”.

Parking
When the car is stopped and the parking brake is working, the screen can display the video image, and otherwise the screen display warning information.

Back view camera
This unit is equipped with back view camera output. The camera is used to observe the situation behind the vehicle when you are backing the car.
Please connect your back view camera with the back car video input. And connect the reverse wire for back a car with the rear gear light. Rear view camera picture will be enabled when you are backing the car.

Radio operation
Band selection
Press Band button on the RC or front panel to select your band of choice in the following sequence:

- FM 1 - FM 2 - FM 3 - AM1 - AM2

Manual tuning
To find a station, select a band first, then press and hold "<<" / ">>" buttons on the RC until Manual appear on the display. Then press repeatedly these buttons to search for the needed frequency upward or downward.

Auto tuning
To find a station, select a band first, then press "<<" / ">>" buttons on the panel or press "<<" / ">>" buttons on the RC, the automatic search will start downward or upward. It will stop when a station is found.

Select a station
Repeatedly press "<<" / ">>" buttons on the panel to select a present station downward or upward. Or press digital number (1-6) on the RC to select any present station.

Preset scan
In tuner mode, press the AS/PS on the panel or RPT/P.SCN button on the remote to scan the preset memorized station, each preset scan for 5 seconds. Press again to stop operation.
Scan
Press SCAN button on the front panel to search station, it will playback 10 seconds when a station is found. Press SCAN button again to confirm the station. If you not confirm the station, it will continue to search.

Auto store
In tuner mode, Press the AS/PS on the panel or or RPT/P.SCN button on the RC and hold for 2 seconds to store radio stations with the best reception to the preset number automatically.

Manual store
In tuner mode, long press the number 1-6 buttons on the RC after you find the station you desired. The station will preset to the corresponding number.

In tuner mode, long press the MEM button on the front panel after you find the station you desired, then rotate the VOL knob to select the number 1-6 on the radio interface, press the VOL/OK button on the front panel to confirm. The station will preset to the corresponding number.

Stereo/Mono
In FM band, press Stereo/Mono button on the RC to select stereo or mono sound reception.

DVD/USB/SD/MMC Operation
Load DISC
1. Turn the power on.
2. Press the Open button on the front panel to flip it down.
3. Insert the disc with the printed side facing upward into the slot and then attach the front panel. The DVD mode will be turned automatically.
4. Press Open button on the panel and Eject button in the inner panel to eject the disc. If the disc not removed for about 10 seconds after eject, the disc will reinserted automatically. When disc in/out, put the front at 0 degree to avoid distorting the disc.
5 You may also choose the playing mode using the Mode button.

NOTE:
The back view camera is available when the DVD mode is working.

USB Flash Memory
To play MP3/ MP4/ WMA files from a USB flash memory, insert a USB flash memory into the USB port on the right side of the unit. The unit will play automatically MP3/MP4/ WMA/JPEG files. Or repeatedly press the MODE button to select USB mode.

SD/MMC Card
To play MP3/ MP4/ WMA/JPEG files on a SD/MMC card, insert the card into the card slot (you should press the Open button on the panel to flip down front panel and insert the SD/MMC card into card slot.) The unit will play automatically MP3/MP4/ WMA/JPEG files. Or repeatedly press the MODE button to select SD mode.

Play/Pause
In Multimedia mode, press Play/Pause button on the RC or front panel to pause playback. Press again to resume playback.

Stop playback
In Mp3 mode press Stop button on the RC to stop playback. Press Play/pause button to restart playback. In DVD mode press Stop button once on the RC to pause playback. Press again to resume playback. Press the Stop button twice to finally stop playback. Press the Play/Pause button to restart playback.

Select track
Press the M.SEL button on the front panel or RC to select the playback mode: MUSIC MODE — PHOTO MODE — VIDEO MODE. Then press the UP/DOWN button on the RC, also you can rotate the VOL knob or press the << or >> on the front panel to select the file you desired to playback. Press ENTER button on the front panel or RC to enter the next menu, press the MENU button on the front panel to turn to previous menu. Press the MENU button on the RC to back to main menu.

During playback press SEEK<< or SEEK+ >> on the RC or front panel to play the previous or next track. You can play the tracks by pressing Play/Pause button. Press number button (0-9) on the RC to select the desired track and then press ENTER button on the RC to confirm playback.

**Fast forward/rewind**

During playback press and hold repeatedly SEEK<< or SEEK+ >> on the RC or the panel to activate fast backward or forward playing. With each pressing, the playback speed will increase. While fast playback, press Play/Pause button on the RC to resume normal speed. When fast backward/forward playback reaches the previous or next track, the unit will resume normal payback.

**A-B segment repeat**

During playback, press it at the starting point of section you want to repeat (A), press this button again at the ending point of the section you want to repeat (B), section A-B repeating starts. Press it again to cancel the A-B repeat function.

**Random playback**

In Media file mode, press RDM button on the RC to set shuffle playback on or off.

**Introduce playback**

In CD mode, Press INT button on the RC to activate introduction function. Several initial seconds of each track will be played. Press the button again to cancel intro playback.

**GOTO**

During playback, press and hold AUDIO/GOTO button on the RC to select playback track or chapter. Then a time search message box will display on the screen. Input the start time you want the track or chapter to start. Press ENTER to confirm. The track or chapter will start from the time you set.

**Repeat playback**

During playback, press P.SCAN/RPT button on the RC or front panel repeatedly for repeat playing in different modes: Repeat one, repeat track, and repeat all, repeat chapter, repeat title, repeat off.

**PROG playback**

Press PROG button on the RC to enter program list. Press <</>/>/> buttons and digit buttons to enter the number of the desired track to be on selected position. For DVD and file disc, select title and chapter number; For VCD and CD, select track number. Move the cursor to select START and press ENTER button on the RC to play. If you want to change page, move the cursor to NEXT >> for PREV << and press ENTER button on the RC to change next or previous page. If you want to cannel PROG playback, press again PROG button on the RC and then select Stop option to stop PROG playback.
OSD function
During playback, press repeatedly to show display information. Such as: Number of title, number of chapter, TITLE elapsed => TITLE remain => CHAPTER elapsed => CHAPTER remain => Display off.

Zoom in/out
Press it and hold for two seconds in Movie mode to zoom the image in or out in the sequence of 2x -> 3x -> 4x -> 1/2 -> 1/3 -> 1/4 -> normal.

PBC function
During VCD disc playback, press and hold STOP/PBC button on the RC to set PBC on or off; When PBC is on, the screen will show PBC menu. If the menu consists of a list of titles, you can select a desired one using number buttons on the RC.

Changing angle

2. Insert both T-Keys into hole on the front of the set until they lock.
3. Pull out the unit.

**NOTE:**
The source unit will turn off if the control panel is open longer than 60 seconds. The LED light on the inner panel will twinkle in red when the ACC power is cut off.

**Handling & Cleaning DISC**

**Handling**

- Dirty, scratched or warped discs may cause skipping or noise.
- To keep the disc clean, only handle the disc by its edges.
- Discs should be stored in their cases after use to avoid scratches.
- Do not expose discs to direct sunlight, high humidity, high temperature or dust.
- Prolonged exposure to extreme temperature can warp the disc (such as leaving the discs in your car in summer heat).
- Do not stick or write anything on either side of disc. Sharp writing instruments, or the ink used in some felt-tip pens, may damage its surface.
- Do not touch the unlabelled side. Do not attach any seal, label or data protection sheet to either side of a disc.

**Cleaning DISC**
Fingerprints should be carefully wiped from the surface of disc with a soft cloth. Unlike conventional records, compact discs have no grooves to collect dust or dirt, so gently wiping them with a soft cloth should remove most dust or stains. Wipe in a straight motion from the centre to the edge.

**CAUTION:** Never use thinner benzene, record cleaner or anti-static spray on a compact disc. Such chemicals can damage its plastic surface.

ATTENTION INSTALLER!

Bluetooth Connection Instructions

1. To enter Bluetooth mode, you can tap Bluetooth icon on Main menu or long press the “mute”/“Bluetooth” button on the Remote Control, or press “mode” button on remote or on front panel to select bluetooth mode.

![Bluetooth Mode](image)

2. At the 1st time when using BLUETOOTH, you need to pair the mobile phone first. If a phone has been paired with BT before, the BT icon automatically changes its color from gray to blue when the unit is turned on.

3. Place your Bluetooth Enabled cell phone in pairing mode.

4. Connect your phone to the radio, using the pass code 0000
Video File Conversion 101

File compression seems to be name of the game to see who can fit the most music and video onto today's media devices. Unfortunately with so many compression formats and codecs, it becomes virtually impossibly for your head unit to support the multitude of song and video file types. To overcome the confusion of what video formats are compatible with this head unit, we suggest using a file converter to align the stars and change the many video file types you have to one standard.

Surely there are many file conversion apps available on the line, but CNet seems to be a reliable source and has a good file conversion app available. Check out: 
http://download.cnet.com/Free-AVI-Video-Converter/3000-2194_4-75685273.html
Drop by our website for the link instead of typing a million letters and symbols into your web browser....

After the app downloads and installs, it's pretty simple to convert your files. Select the Add File button and browse your computer to find the alien file type you need to convert. The file info should appear at the top:

There are some optional choices after the file is selected, like changing the name to protect the innocent, or change the location the converted file is saved. If you feeling frisky go for it:
Video File Conversion 101

Otherwise, choose the file format you want to convert your movie to. May we recommend the AVI......:

You can also choose the resolution for the screen size and type. If you’re converting an original file that is super high quality resolution, you might consider the HD options, but most commonly you should choose Normal Quality or Original Quality.

There are some fantastic options to change the standard codec, bit & frame rates, blood types, and so on, but we suggest keeping everything preset as the app recommends. It’s these crazy variables that brought you here in the first place.

Finally, click convert and wait for the bell:

SoundStream Technologies
1550 S. Maple Ave.
Montebello, CA 90640
Attn. Customer Service
SoundStream Technologies warrants this product to be free from defects in materials and workmanship under normal use and conditions, for a period of 1 year from the original date of purchase, if purchased and professionally installed by an Authorized SoundStream dealer. Any product purchased from and/or installed by others will be warranted for 90 days only. This warranty does not cover any expenses incurred in the removal or re-installation of the product, and is offered to the original purchaser only.

Should service be necessary for any reason, due to a manufacturing defect or malfunction during the warranty period, SoundStream Technologies will repair or replace, at its discretion, the defective merchandise at no charge upon delivery of the product to the address shown below, with proof of purchase. Before returning the product for service:
- Enclose with the defective product a brief description of the problem with a name and daytime phone number so we may be in contact with any questions or concerns regarding the return.
- Enclose a copy of the original sales receipt for proof of purchase and installation.
- Enclose a $15.00 US certified check or money order to cover shipping and handling for return of the product. Do not include cash.

Carefully pack the product to protect it from damage during shipping and send it prepaid to:
SoundStream Technologies
1550 S. Maple Ave.
Montebello, CA 90640
Attn. Customer Service
Ph: 800-724-1377 Fax: 323-722-8125

Please note, the warranty will not cover the following:
- Any product that has been misused or physically damaged.
- Any product that has been installed incorrectly. (i.e. over powered, incorrect enclosure, incorrect wiring, etc.)
- Any units that have been previously opened or repaired by a service center which is not authorized by SoundStream Technologies.

Any applicable implied warranties, including the warranty of the merchant's ability are limited in duration to a maximum of 2 years from the date of the original purchase at retail and no warranties, whether expressed or implied, shall apply to this product thereafter. Under no circumstances shall SoundStream Technologies be liable for any loss or damage, direct or consequential arising out of the use of, or inability to use this product. (some states do not allow for limitations of implied warranties or exclusion of consequential damage therefore these restrictions may not apply.) To receive the full benefit of this warranty, fill out the included warranty card and mail it to the address shown.
