Getting Started

WARNING
See the Important Safety and Product Information guide in the product box for product warnings and other important information.

- Update the maps and software on your device (Map and Software Updates, page 18).
- Mount the device in your vehicle and connect it to power (Mounting and Powering the Garmin DriveSmart Device in Your Vehicle, page 1).
- Acquire GPS signals (Acquiring GPS Signals, page 1).
- Adjust the volume (Adjusting the Volume, page 2) and display brightness (Adjusting the Screen Brightness, page 2).
- Navigate to your destination (Starting a Route, page 6).

Garmin DriveSmart 55/65 Device Overview

Mounting and Powering the Garmin DriveSmart Device in Your Vehicle

WARNING
This product contains a lithium-ion battery. To prevent the possibility of personal injury or product damage caused by battery exposure to extreme heat, store the device out of direct sunlight.

Before you use your device on battery power, you should charge it.

1. Plug the vehicle power cable \(1\) into the USB port on the device.

2. Press the mount \(2\) onto the suction cup \(3\) until it snaps into place.

3. Press the suction cup to the windshield, and flip the lever \(4\) back toward the windshield.

4. Fit the tab on the top of the mount into the slot on the back of the device.

5. Press the bottom of the mount into the device until it clicks.

6. Plug the other end of the vehicle power cable into a power outlet in your vehicle.

Turning the Device On or Off

- To turn the device on, press the power key \(1\), or connect the device to power.

- To put the device in power saving mode, press the power key while the device is on. While in power saving mode, the screen is off and the device uses very little power, but it can wake instantly for use.

  TIP: You can charge your device faster by putting it in power saving mode while charging the battery.

- To turn off the device completely, hold the power key until a prompt appears on the screen, and select Off. The prompt appears after five seconds. If you release the power key before the prompt appears, the device enters power saving mode.

Acquiring GPS Signals

When you turn on your navigation device, the GPS receiver must collect satellite data and establish the current location. The time required to acquire satellite signals varies based on several factors, including how far you are from the location where you last used your navigation device, whether you have a clear view of the sky, and how long it has been since you last used your navigation device. The first time you turn on your navigation device, it may take several minutes to acquire satellite signals.

1. Turn on the device.

2. Wait while the device locates satellites.

3. If necessary, go to an open area, away from tall buildings and trees.

GPS signal strength. Hold to view GPS accuracy and acquired satellite information (Viewing GPS Signal Status, page 21).

Bluetooth® technology status. Select to view the Bluetooth settings (Wireless Network Settings, page 17).

Wi-fi signal strength. Select to change the wi-fi settings (Wireless Network Settings, page 17).

Connected to hands-free calling. Select to place a phone call (Hands-Free Calling, page 12).

Current time. Select to set the time (Setting the Time, page 18).

Battery charge level.

Navigating to Your Destination

Status Bar Icons

The status bar is located at the top of the main menu. The status bar icons display information about features on the device. You can select some icons to change settings or view additional information.
Using the On-Screen Buttons
On-screen buttons allow you to navigate the pages, menus, and menu options on your device.
• Select to return to the previous menu screen.
• Hold to quickly return to the main menu.
• Select or to scroll through lists or menus.
• Hold or to scroll faster.
• Select to see a context-based menu of options for the current screen.

Adjusting the Volume
1 Select Volume.
2 Select an option:
   • Use the slider bar to adjust the volume.
   • Select to mute the device.
   • Select for additional options.

Enabling Automatic Volume
Your device can increase or decrease the volume automatically based on the level of background noise.
1 Select Volume > .
2 Select Automatic Volume.

Adjusting the Screen Brightness
1 Select Settings > Display > Brightness.
2 Use the slider bar to adjust the brightness.

Driver Awareness Features and Alerts

Railroad crossing: The device plays a tone and displays the distance to an upcoming railroad crossing.

Animal crossing: The device plays a tone and displays the distance to an upcoming animal crossing area.

Curves: The device plays a tone and displays the distance to a curve in the road.

Slower traffic: The device plays a tone and displays the distance to slower traffic when you approach slower traffic at a higher speed. Your device must be receiving traffic information to use this feature (Traffic, page 13).

Fatigue warning: The device plays a tone and suggests upcoming rest stops after you have been driving for more than two hours without stopping.

Enabling or Disabling Audible Driver Alerts
You can enable or disable the audible tone for some types of driver alerts. The visual alert appears even when the tone is disabled.
1 Select Settings > Driver Assistance > Driver Alerts.
2 Select or clear the check box next to each alert.

Red Light and Speed Cameras

NOTICE
Garmin is not responsible for the accuracy of or the consequences of using a red light or speed camera database.

NOTE: This feature is not available for all regions or product models.

Information about red light and speed camera locations is available in some areas for some product models. The device alerts you when you approach a reported speed or red light camera.
• In some areas, your device can receive live red light and speed camera data while connected to a smartphone running the Garmin Drive app.
• You can use the Garmin Express™ software (garmin.com/exp) to update the camera database stored on your device. You should update your device frequently to receive the most up-to-date camera information.
• To maintain an updated database of red light and speed camera locations, your device must have an active subscription to download and store safety camera data. Go to garmin.com/speedcameras to check availability and compatibility, or to purchase a subscription or one-time update. You can purchase a new region or extend an existing subscription at any time.

NOTE: In some regions, some product bundles include pre-loaded red light and speed camera data with subscription-free updates.

Finding and Saving Locations
The maps loaded in your device contain locations, such as restaurants, hotels, auto services, and detailed street information. The Where To? menu helps you find your destination by providing several methods to browse, search, and save this information.
From the main menu, select Where To?.
• To quickly search all locations on your device, select Q Search (Finding a Location Using the Search Bar, page 3).
• To find an address, select Address (Finding an Address, page 3).
• To browse or search pre-loaded points of interest by category, select Categories (Finding a Location by Category, page 4).
• To search near a different city or area, select next to the current search area (Changing the Search Area, page 3).
• To view and edit your saved locations, select Saved (Saving Locations, page 6).
• To view locations you have recently selected from the search results, select Recent (Viewing Recently Found Locations, page 5).
• To browse, search, and check into Foursquare® points of interest, select Foursquare® (Searching Foursquare Points of Interest, page 4).
• To navigate to specific geographic coordinates, select Coordinates (Finding a Location Using Coordinates, page 5).

Finding a Location Using the Search Bar
You can use the search bar to search for locations by entering a category, brand name, address, or city name.

1 Select Where To?.
2 Select Search in the search bar.
3 Enter all or part of the search term. Suggested search terms appear below the search bar.
4 Select an option:
   • To search for a type of business, enter a category name (for example, "movie theaters").
   • To search for a business name, enter all or part of the name.
   • To search for an address near you, enter the house number and street name.
   • To search for an address in another city, enter the house number, street name, city, and state.
   • To search for a city, enter the city and state.
   • To search for coordinates, enter latitude and longitude coordinates.
5 Select an option:
   • To search using a suggested search term, select the term.
   • To search using the text you entered, select Q.
6 If necessary, select a location.

Finding an Address
NOTE: The order of the steps may change depending on the map data loaded on your device.

1 Select Where To?.
2 If necessary, select Searching near: to search near a different city or area.
3 Select Address.
4 Follow the on-screen instructions to enter address information.
5 Select the address.

Location Search Results
By default, the location search results appear in a list, with the nearest location at the top. You can scroll down to view more results.

Changing the Search Area
By default, the device searches for locations near your current location. You can also search other areas, such as near your destination, near another city, or along your active route.

1 Select Where To?.
2 Select next to the current search area ①.
3 Select a search area.
4 If necessary, follow the on-screen instructions to select a specific location.

The selected search area appears next to 📍. When you search for a location using any of the options in the Where To? menu, the device suggests locations near this area first.

**Points of Interest**
A point of interest is a place that you may find useful or interesting. Points of interest are organized by category and can include popular travel destinations such as gas stations, restaurants, hotels, and entertainment venues.

**Finding a Location by Category**
1 Select Where To?.
2 Select a category, or select Categories.
3 If necessary, select a subcategory.
4 Select a location.

**Searching Within a Category**
After you have performed a search for a point of interest, certain categories may display a Quick Search list that shows the last four destinations you selected.
1 Select Where To? > Categories.
2 Select a category.
3 Select an option:
   • Select a destination from the quick search list on the right side of the screen.
   The quick search list provides a list of recently found locations in the selected category.
   • Select a subcategory, if necessary, and select a destination.

**Finding National Parks**
Device models that include maps for North America or the United States also include detailed information for national parks in the United States. You can navigate to a national park or to a location within a national park.
1 Select Where To? > National Parks.
   A list of national parks appears, with the nearest park at the top.
2 Select Search, and enter all or part of the park name to narrow the results (optional).
3 Select a national park.
   A list of categories for locations of features and amenities within the park appears below the park name.
4 Select an option:
   • To start navigating to the park, select Go!.
   • To view more park information or explore the park features and amenities, select 📍.
   • To quickly find a location within the park, select a category from the list below the park name, and select a location.

**Exploring National Park Features and Amenities**
You can explore detailed information about the features and amenities available inside a national park, and navigate to specific locations in the park. For example, you can find campgrounds, landmarks, visitor centers, and popular attractions.
1 From the location search results, select a national park, and select 📍.
2 Select Explore this Park.
   A list of categories for park features and amenities appears.
3 Select a category.
4 Select a location, and select Go!.

**Finding HISTORY® Points of Interest**
Your device includes HISTORY points of interest, which allow you to find and learn about historically significant locations and attractions around the world, such as historic buildings, monuments, museums, and notable locations of historic events.
1 Select Where To? > History®.
2 Select a category.
3 Select a location.
4 Select 📍 to view a photo and a short summary of the location’s history.

**Foursquare**
Foursquare is a location-based social network. Your device includes pre-loaded Foursquare points of interest, which are indicated by the Foursquare logo in your location search results. You can connect to your Foursquare account using the Garmin Drive app on your compatible smartphone. This allows you to view Foursquare location details, check in to a location, and search for points of interest in the online Foursquare database.

**Connecting to Your Foursquare Account**
Before you can use this feature, your device must be connected to a supported phone running the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).
1 On your smartphone, open the Garmin Drive app.
2 Select 📍 > Foursquare® > Login.
3 Enter your Foursquare login information.

**Searching Foursquare Points of Interest**
You can search for Foursquare points of interest loaded on your device. While your device is connected to your Foursquare account using the Garmin Drive app, the search provides the most up-to-date results from the online Foursquare database and customized results from your Foursquare user account (Connecting to Your Foursquare Account, page 4).
1 Select Where To? > Categories > Foursquare®.

**Viewing Foursquare Location Details**
Before you can use this feature, your device must be connected to your Foursquare account using the Garmin Drive app (Connecting to Your Foursquare Account, page 4).
You can view detailed Foursquare location information, such as user ratings, restaurant pricing information, and hours of operation.
1 From the location search results, select a Foursquare point of interest.
2 Select 📍.

**Checking in with Foursquare**
Before you can use this feature, your device must be connected to your Foursquare account using the Garmin Drive app (Connecting to Your Foursquare Account, page 4).
1 Select Apps > Foursquare® > Check In.
2 Select a point of interest.
3 Select 📍 > Check In.

**TripAdvisor®**
Your device includes TripAdvisor points of interest and ratings. TripAdvisor ratings appear automatically in the search results list.
for applicable points of interest. You can also search for nearby TripAdvisor points of interest and sort by distance or popularity.

**Finding TripAdvisor Points of Interest**
1. Select Where To? > Categories > TripAdvisor.
2. Select a category.
   A list of nearby TripAdvisor points of interest for the category appears.
3. Select Sort Results to sort the search results by distance or popularity (optional).

**Navigating to Points of Interest Within a Venue**
**NOTE:** This feature may not be available in all areas or for all product models.
You can create a route to a point of interest (POI) within a larger venue, such as a store in a shopping mall or a specific terminal in an airport.
1. Select Where To? > Search.
2. Select an option:
   - To search for the venue, enter the name or address of the venue, select Q, and go to step 3.
   - To search for the POI, enter the name of the POI, select Q, and go to step 5.
3. Select the venue.
   A list of categories appears below the venue, such as restaurants, car rentals, or terminals.
4. Select a category.
5. Select the POI, and select Go!
The device creates a route to the parking area or venue entrance closest to the POI. When you arrive at the destination, a checkered flag indicates the recommended parking area. A labeled point indicates the location of the POI within the venue.

**Exploring a Venue**
**NOTE:** This feature may not be available in all areas or for all product models.
You can view a list of all points of interest located within each venue.
1. Select a venue.
2. Select ⊕ > Explore this Venue.

**Search Tools**
Search tools allow you to search for specific types of locations by responding to on-screen prompts.

**Finding an Intersection**
You can search for an intersection or junction between two streets, highways, or other roads.
2. Follow the on-screen instructions to enter street information.
3. Select the intersection.

**Finding a Location Using Coordinates**
You can find a location using latitude and longitude coordinates. This can be helpful when geocaching.
2. If necessary, select A, and change the coordinate format or datum.
3. Enter the latitude and longitude coordinates.
4. Select View on Map.

**Parking**
Your Garmin DriveSmart device includes detailed parking data, which can help you find nearby parking based on the likelihood of available parking spots, type of parking area, price, or accepted payment methods.
**NOTE:** Detailed parking data is not available in all areas or for all parking locations.

**Finding Parking Near Your Current Location**
2. Select Filter Parking, and select one or more categories to filter parking by availability, type, price, or payment methods (optional).
   **NOTE:** Detailed parking data is not available in all areas or for all parking locations.
3. Select a parking location.
4. Select Go!

**Finding Parking Near a Specified Location**
1. Search for a location.
2. From the location search results, select a location.
3. Select ⊕.
   A list of parking areas near the selected location appears.
4. Select Filter Parking, and select one or more categories to filter parking by availability, type, price, or payment methods (optional).
   **NOTE:** Detailed parking data is not available in all areas or for all parking locations.
5. Select a parking location.
6. Select Go!

**Understanding Parking Colors and Symbols**
Parking locations that include detailed parking data are color-coded to show the likelihood of finding parking. Symbols indicate the type of parking available (street or lot), relative pricing information, and payment type.
You can view the legend for these colors and symbols on the device.
   From the parking search results, select ⊕.

**Viewing Recently Found Locations**
Your device stores a history of the last 50 locations you have found.
Select Where To? > Recent.

**Clearing the List of Recently Found Locations**
Select Where To? > Recent > Clear > Yes.
Getting Directions to Your Current Location
If you need to tell another person how to get to your current location, your device can give you a list of directions.
1. From the map, select the vehicle.
2. Select Where To? > Directions to Me.
3. Select a starting location.
4. Select Select.

Removing a Shortcut
You can add shortcuts to the Where To? menu. A shortcut can point to a location, a category, or a search tool.
The Where To? menu can contain up to 36 shortcut icons.
2. Select an item.

Adding a Shortcut
You can add shortcuts to the Where To? menu. A shortcut can point to a location, a category, or a search tool.
2. Select a location.
3. Enter a name, and select Save.
4. Select Done.

Saving Locations

Saving a Location
1. Search for a location (Finding a Location by Category, page 4).
2. From the search results, select a location.
3. Select Name > Save.
4. Enter an item, and select Done.

Saving Your Current Location
1. From the map, select the vehicle icon.
2. Select Save.
3. Enter a name, and select Done.
4. Select OK.

Editing a Saved Location
1. Select Where To? > Saved.
2. If necessary, select a category.
3. Select a location.
4. Select Edit.
5. Select Categories to assign categories to the saved location.
6. Select Change Map Symbol to change the symbol used to mark the saved location on a map.
7. Edit the information.
8. Select Done.

Assigning Categories to a Saved Location
You can add custom categories to organize your saved locations.

Assigning a Saved Location
1. Select Where To? > Saved.
2. Select a location.

To view the phone number and other location details,
From the search results, select a location.
Select a shortcut to remove.
Select to remove.
Select Search for a location
From the map, select the vehicle.
Select the shortcut again to confirm.
Select an option:
Select a location.
Select Edit the information.
Select an item.
Select Select.
Select a starting location.
Select a location.

Routes
A route is a path from your current location to one or more destinations.
- The device calculates a recommended route to your destination based on the preferences you set, including the route calculation mode (Changing the Route Calculation Mode, page 8) and avoidances (Avoiding Delays, Tolls, and Areas, page 8).
- You can start navigating to your destination quickly using the recommended route, or you can select an alternate route (Starting a Route, page 8).
- If there are specific roads you need to use or avoid, you can customize the route (Shaping Your Route, page 8).
- You can add multiple destinations to a route (Adding a Location to Your Route, page 7).

Following a Route

Starting a Route
1. Select Where To?, and search for a location (Finding and Saving Locations, page 2).
2. Select a location.
3. Select an option:
   - To start navigating using the recommended route, select Go!.
   - To choose an alternate route, select ¥, and select a route. Alternate routes appear to the right of the map.
   - To edit the course of the route, select ¥ > Edit Route, and add shaping points to the route (Shaping Your Route, page 8).

The device calculates a route to the location and guides you using voice prompts and information on the map (Your Route on the Map, page 7). A preview of the major roads in your route appears at the edge of the map for several seconds.
If you need to stop at additional destinations, you can add the locations to your route (Adding a Location to Your Route, page 7).

Starting a Route by Using the Map
You can start route by selecting a location from the map.
1. Select View Map.
2. Drag and zoom the map to display the area to search.
3. If necessary, select Q to filter the displayed points of interest by category.
Location markers ( or a blue dot) appear on the map.
4. Select an option:
   - Select a location marker.
   - Select a point, such as a street, intersection, or address location.
5 Select Go!.

Going Home
The first time you start a route home, the device prompts you to enter your home location.
1 Select Where To? > Go Home.
2 If necessary, enter your home location.

Editing Your Home Location
1 Select Where To? > \(\text{H}\) > Set Home Location.
2 Enter your home location.

Your Route on the Map
As you travel, the device guides you to your destination using voice prompts and information on the map. Instructions for your next turn or exit, or other actions appear across the top of the map.

Active Lane Guidance
As you approach some turns, exits, or interchanges in your route, a detailed simulation of the road appears beside the map, if available. A colored line ① indicates the proper lane for the turn.

Viewing Turns and Directions
While navigating a route, you can view upcoming turns, lane changes, or other directions for your route.
1 From the map, select an option:
   • To view upcoming turns and directions as you navigate, select \(\text{\(\text{T}\)}\) > Turns.
     The map tool displays the next four turns or directions beside the map. The list updates automatically as you navigate the route.
   • To view the complete list of turns and directions for the entire route, select the text bar at the top of the map.
2 Select a turn or direction (optional).
   Detailed information appears. An image of the junction may appear for junctions on major roadways, if available.

Viewing the Entire Route on the Map
1 While navigating a route, select anywhere on the map.
2 Select \(\text{\(\text{T}\)}\).

Arriving at Your Destination
When you approach your destination, the device provides information to help you complete your route.
• ① indicates the location of your destination on the map, and a voice prompt announces you are approaching your destination.
• When you approach some destinations, the device automatically prompts you to search for parking. You can select Yes to find nearby parking areas (Parking Near Your Destination, page 7).
• When you stop at your destination, the device automatically ends the route. If the device does not detect your arrival automatically, you can select Stop to end your route.

Parking Near Your Destination
Your device can help you find a parking spot near your destination. When you approach some destinations, the device automatically prompts you to search for parking.
1 Select an option:
   • When the device prompts you, select Yes to search for nearby parking.
   • If the device does not prompt you, select Where To? > Categories > Parking, and select \(\text{\(\text{T}\)}\) > My Destination.
2 Select Filter Parking, and select one or more categories to filter parking by availability, type, price, or payment methods (optional).
   NOTE: Detailed parking data is not available in all areas or for all parking locations.
3 Select a parking location, and select Go! > Add As Next Stop.
   The device guides you to the parking area.

Finding Your Last Parking Spot
When you disconnect the device from vehicle power while the device is on, your current location is saved as a parking spot. Select Apps > Last Spot.

Changing Your Active Route
Adding a Location to Your Route
Before you can add a location to your route, you must be navigating a route (Starting a Route, page 6).
You can add locations to the middle or end of your route. For example, you can add a fuel station as the next destination in your route.
TIP: To create complex routes with multiple destinations or scheduled stops, you can use the trip planner to plan, schedule, and save a trip (Planning a Trip, page 15).
1 From the map, select \(\text{\(\text{T}\)}\) > Where To?.
2 Search for a location (Finding and Saving Locations, page 2).
3 Select a location.
4 Select Go!
5 Select an option:
   • To add the location as the next destination in your route, select Add As Next Stop.
   • To add the location to the end of your route, select Add As Last Stop.
   • To add the location and edit the order of destinations in your route, select Add to Active Route.
The device re-calculates the route to include the added location and guides you to the destinations in order.

**Shaping Your Route**

Before you can shape your route, you must start a route (Starting a Route, page 6).

You can manually shape your route to change its course. This allows you to direct the route to use a certain road or go through a certain area without adding a destination to the route.

1 Touch anywhere on the map.
2 Select .
The device enters route shaping mode.
3 Select a location on the map.
   TIP: You can select + to zoom in on the map and select a more precise location.
The device recalculates the route to travel through the selected location.
4 If necessary, select an option:
   • To add more shaping points to the route, select additional locations on the map.
   • To remove a shaping point, select .
5 When you are finished shaping the route, select Go!

**Taking a Detour**

You can take a detour for a specified distance along your route or detour around specific roads. This is useful if you encounter construction zones, closed roads, or poor road conditions.

1 From the map, select > Edit Route.
   TIP: If the Edit Route tool is not in the map tools menu, you can add it.
2 Select an option:
   • To detour your route for a specific distance, select Detour by Distance.
   • To detour around a specific road on the route, select Detour by Road.
   • To find a new route, select Detour.

**Changing the Route Calculation Mode**

1 Select Settings > Calculation Mode.
2 Select an option:
   • Select Faster Time to calculate routes that are faster to drive but can be longer in distance.
   • Select Off Road to calculate point-to-point routes (without roads).
   • Select Shorter Distance to calculate routes that are shorter in distance but can take more time to drive.

**Stopping the Route**

From the map, select > Stop.

**Using Suggested Routes**

Before you can use this feature, you must save at least one location and enable the travel history feature (Device and Privacy Settings, page 18).

Using the myTrends™ feature, your device predicts your destination based on your travel history, the day of the week, and the time of day. After you have driven to a saved location several times, the location may appear in the navigation bar on the map, along with the estimated time of travel, and traffic information.

Select the navigation bar to view a suggested route to the location.

**Avoiding Delays, Tolls, and Areas**

**Avoiding Traffic Delays on Your Route**

Before you can avoid traffic delays, you must be receiving traffic information (Receiving Traffic Data Using Your Smartphone, page 13).

By default, the device optimizes your route to avoid traffic delays automatically. If you have disabled this option in the traffic settings (Traffic Settings, page 17), you can view and avoid traffic delays manually.

1 While navigating a route, select > Traffic.
2 Select Alternate Route, if available.
3 Select Go!

**Avoiding Toll Roads**

Your device can avoid routing you through areas that require tolls, such as toll roads, toll bridges, or congestion areas. The device may still include a toll area in your route if no other reasonable routes are available.

1 Select Settings.
2 Select an option:
   NOTE: The menu changes based on your area and the map data on your device.
   • Select Toll Roads.
   • Select Tolls and Fees > Toll Roads.
3 Select an option:
   • To be asked each time before routing through a toll area, select Always Ask.
   • To always avoid tolls, select Avoid.
   • To always allow tolls, select Allow.
4 Select Save.

**Avoiding Toll Stickers**

If the map data on your device contains detailed toll sticker information, you can avoid or allow roads that require toll stickers for each country.

NOTE: This feature is not available in all areas.

1 Select Settings > Tolls and Fees > Toll Stickers.
2 Select a country.
3 Select an option:
   • To be asked each time before routing through an area that requires toll stickers, select Always Ask.
   • To always avoid tolls that require toll stickers, select Avoid.
   • To always allow roads that require toll stickers, select Allow.
4 Select Save.

**Avoiding Road Features**

1 Select Settings > Avoidances.
2 Select the road features to avoid on your routes, and select OK.

**Avoiding Environmental Zones**

Your device can avoid areas with environmental or emissions restrictions that may apply to your vehicle.
1 Select Settings > Environmental Zones.
2 Select an option:
   • To be asked each time before routing through an environmental zone, select Always Ask.
   • To always avoid environmental zones, select Avoid.
   • To always allow environmental zones, select Allow.
3 Select Save.

**Custom Avoidances**
Custom avoidances allow you to select specific areas or sections of road to avoid. When the device calculates a route, it avoids these areas and roads unless no other reasonable route is available.

**Avoiding a Road**
1 Select Settings > Custom Avoidances.
2 If necessary, select Add Avoidance.
3 Select Add Avoid Road.
4 Select the starting point of the section of road to avoid, and select Next.
5 Select the ending point of the road section, and select Next.
6 Select Done.

**Avoiding an Area**
1 Select Settings > Custom Avoidances.
2 If necessary, select Add Avoidance.
3 Select Add Avoid Area.
4 Select the upper-left corner of the area to avoid, and select Next.
5 Select the lower-right corner of the area to avoid, and select Next.
   The selected area is shaded on the map.
6 Select Done.

**Disabling a Custom Avoidance**
You can disable a custom avoidance without deleting it.
1 Select Settings > Custom Avoidances.
2 Select an avoidance.
3 Select ☒ > Disable.

**Deleting Custom Avoidances**
1 Select Settings > Custom Avoidances.
2 Select an option:
   • To delete all custom avoidances, select ❌.
   • To delete one custom avoidance, select the avoidance, and select ☒ > Delete.

**Navigating Off Road**
If you are not following roadways as you navigate, you can use Off Road mode.
1 Select Settings > Navigation.
2 Select Calculation Mode > Off Road > Save.
   The next route will be calculated as a straight line to the location.

**Using the Map**
You can use the map to navigate a route (Your Route on the Map, page 7) or to view a map of your surroundings when no route is active.
1 Select View Map.
2 Touch anywhere on the map.
3 Select an option:
   • Drag the map to pan left, right, up, or down.
   • To zoom in or out, select † or ‡.
   • To switch between North Up and 3-D views, select †.4.
   • To filter the displayed points of interest by category, select □.
   • To start a route, select a location on the map, and select Go! (Starting a Route by Using the Map, page 6).

**Map Tools**
Map tools provide quick access to information and device functions while you view the map. When you activate a map tool, it appears in a panel at the edge of the map.

**Stop:** Stops navigation of the active route.

**Edit Route:** Allows you to take a detour or skip locations in your route (Changing Your Active Route, page 7).

**Mute:** Mutes the master volume.

**Cities Ahead:** Shows upcoming cities and services along your active route or along a highway (Cities Ahead, page 10).

**Up Ahead:** Shows upcoming locations along the route or the road on which you are traveling (Up Ahead, page 9).

**Traffic:** Displays traffic conditions along your route or in your area (Viewing Upcoming Traffic, page 10). This feature is not available in all areas or for all device models.

**Trip Data:** Displays customizable trip data, such as speed or mileage (Viewing Trip Data from the Map, page 10).

**Turns:** Displays a list of upcoming turns in your route (Viewing Turns and Directions, page 7).

**Phone:** Displays a list of recent phone calls from your connected phone, and displays in-call options while a phone call is active (Using In-Call Options, page 13).

**Weather:** Displays weather conditions for your area.

**photoLive:** Displays live traffic cameras from your photoLive subscription (photoLive Traffic Cameras, page 16).

**Report Camera:** Allows you to report a speed or red light camera. This tool is available only when you have speed or red light camera data on your device and you have an active connection to the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).

**Viewing a Map Tool**
1 From the map, select ↓:.
2 Select a map tool.
   The map tool appears in a panel at the edge of the map.
3 When you are done using the map tool, select X.

**Up Ahead**
The Up Ahead tool provides information about upcoming locations along your route or the road on which you are traveling. You can view upcoming points of interest by category, such as restaurants, fuel stations, or rest areas.
You can customize three categories to show in the Up Ahead tool.

**Viewing Upcoming Locations**
1 From the map, select ↓: > Up Ahead.
   While you are traveling, the map tool shows the next location along your road or route in each of the three categories. While you are not traveling, the map tool shows the three category names.
2 Select an option:
   • If the map tool shows categories, select a category to view a list of nearby locations in that category.
   • If the map tool shows upcoming locations, select a location to view location details or start a route to the location.
Customizing the Up Ahead Categories
You can change the location categories that appear in the Up Ahead tool.
1 From the map, select \( \geq \) > Up Ahead.
2 Select a category.
3 Select \( \geq \).
4 Select an option:
   • To move a category up or down in the list, select and drag the arrow next to the category name.
   • To change a category, select the category.
   • To create a custom category, select a category, select Custom Search, and enter the name of a business or category.
5 Select Save.

Cities Ahead
While you are traveling on a highway or navigating a route that includes a highway, the Cities Ahead tool provides information about upcoming cities along the highway. For each city, the map tool shows the distance to the highway exit and the services available, similar to the information on highway road signs.

Viewing Upcoming Cities and Exit Services
1 From the map, select \( \geq \).
   While you are traveling along a highway or an active route, the map tool shows information about upcoming cities and exits.
2 Select a city.
   The device shows a list of points of interest located at the selected city exit, such as fuel stations, lodging, or restaurants.
3 Select a location, and select Go! to start navigating.

Trip Information

Viewing Trip Data from the Map
Before you can view trip data on the map, you must add the tool to the map tools menu.

From the map, select \( \geq \) > Trip Data.

Viewing Customized Trip Information on the Map
You can use the trip data map tool to show customized trip information on the map.
1 From the map, select \( \geq \) > Trip Data.
2 Select an option:
   • Select a data field in the trip data tool ①, and select the information to show in the field.
   • Select the customizable map data field ②, and select the information to show in the field.

Viewing the Trip Information Page
The trip information page displays your speed and provides statistics about your trip.
NOTE: If you make frequent stops, leave the device turned on, so it can accurately measure elapsed time during the trip.
   From the map, select Speed.

Viewing the Trip Log
Your device keeps a trip log, which is a record of the path you have traveled.
1 Select Settings > Map & Vehicle > Map Layers.
2 Select the Trip Log check box.

Resetting Trip Information
1 From the map, select Speed.
2 Select \( \geq \) > Reset Field(s).
3 Select an option:
   • When not navigating a route, select Select All to reset every data field except the speedometer, on the first page.
   • Select Reset Trip Data to reset the information on the trip computer.
   • Select Reset Max. Speed to reset the maximum speed.
   • Select Reset Trip B to reset the odometer.

Viewing Upcoming Traffic
Before you can use this feature, your device must be receiving traffic data (Traffic, page 13).
You can view traffic incidents coming up along your route or along the road on which you are traveling.
1 While navigating a route, select \( \geq \) > Traffic.
   The nearest upcoming traffic incident appears in a panel on the right side of the map.
2 Select the traffic incident to view additional details.

Viewing Traffic on the Map
The traffic map shows color-coded traffic flow and delays on nearby roads.
1 From the main menu, select Apps > Traffic.
2 If necessary, select \( \geq \) > Legend to view the legend for the traffic map.

Searching for Traffic Incidents
1 From the main menu, select Apps > Traffic.
2 Select \( \geq \) > Incidents.
3 Select an item in the list.
4 If there is more than one incident, use the arrows to view additional incidents.

Customizing the Map

Customizing the Map Layers
You can customize which data appear on the map, such as icons for points of interest and road conditions.
1 Select Settings > Map & Vehicle > Map Layers.
2 Select the check box next to each layer you want to show on the map.

Changing the Map Data Field
1 From the map, select a data field.
   NOTE: You cannot customize Speed.
2 Select a type of data to display.

Changing the Map Perspective
1 Select Settings > Map & Vehicle > Driving Map View.
2 Select an option:
   • Select Track Up to display the map in two dimensions (2-D), with your direction of travel at the top.
   • Select North Up to display the map in 2-D with north at the top.
   • Select 3-D to display the map in three dimensions.

Live Services, Traffic, and Smartphone Features

The Garmin Drive app allows your device to receive smart notifications and live information, such as live traffic data and weather information.

Live traffic data: Sends real-time traffic data to your device, such as traffic incidents and delays, construction zones, and road closings (Traffic, page 13).

Weather information: Sends real-time weather forecasts, road conditions, and weather radar to your device (Viewing the Weather Forecast, page 15).

Smart Notifications: Displays phone notifications and messages on your device. This feature is not available for all languages.

Hands-Free calling: Allows you to place and receive phone calls using your device, and allows you to use the device as a hands-free speaker phone.

Send locations to device: Allows you to send locations from your smartphone to your navigation device.

Foursquare check in: Allows you to check in to Foursquare locations using your navigation device (Checking in with Foursquare, page 4).

Pairing with Your Smartphone (iPhone™)

You can pair your Garmin DriveSmart device with your smartphone and the Garmin Drive app to enable additional features and access live information (Live Services, Traffic, and Smartphone Features, page 11).

1 From the app store on your smartphone, install the Garmin Drive app.
2 Turn on your Garmin DriveSmart device, and place the device and your smartphone within 3 m (10 ft.) of each other.
3 On your phone, open the Garmin Drive app.
4 Select Add a Device.
5 Select DriveSmart 55, 65.
6 Go to the Bluetooth settings on your smartphone, select the Garmin DriveSmart device from the list of other devices, and follow the on-screen instructions to pair it.
7 Go back to the Garmin Drive app.
   The app searches for your device and connects to it.
8 Select an option:
   • If you do not have a Garmin account, select Create Account, and follow the on-screen instructions to create and sign in to an account.
   • If you already have a Garmin account, select Sign In, enter your email address and password, and select Next.

The main app dashboard appears. After the devices are paired, they connect automatically when they are turned on and within range.

If you do not have a Garmin account, select Create Account, and follow the on-screen instructions to create an account. If you already have a Garmin account, select Sign In, enter your email address and password, and select Next.

Disabling Bluetooth Features (Android)

By default, all compatible Bluetooth features are enabled when you pair your phone. You can disable specific Bluetooth features and remain connected to the other features.

1 Select Settings > Wireless Networks.
2 Select the phone name.
3 Select an option:
   • To disable hands-free calling, clear the Phone calls check box.
   • To disable Garmin Drive data and smartphone notifications, select Smartphone services, and clear the Smartphone services check box.

Showing or Hiding Notification Categories (iPhone)

You can filter the notifications shown on your device by showing or hiding categories.

1 Select Settings > Wireless Networks.
2 Select Smartphone services.
   TIP: Arrows appear colored when the services are active.
3 Select Smart Notifications.
4 Select the check box next to each notification to show.

Disabling Bluetooth Features (Android)

By default, all compatible Bluetooth features are enabled when you pair your phone. You can disable specific Bluetooth features and remain connected to the other features.

1 Select Settings > Wireless Networks.
2 Select the phone name.
3 Select an option:
   • To disable hands-free calling, clear the Phone calls check box.
   • To disable Garmin Drive data and smartphone notifications, clear the Garmin Drive check box.
Showing or Hiding App Notifications (Android)
You can use the Garmin Drive app to customize which types of smartphone notifications appear on your Garmin DriveSmart device.

1. On your phone, open the Garmin Drive app.
2. Select 📱 > Smart Notifications.
   A list of your smartphone apps appears.
3. Select the toggle switch next to an app to enable or disable notifications for the app.

Bluetooth Feature Status Icons
Status icons appear in the Bluetooth settings next to each paired device.

Select Settings > Wireless Networks.
- A gray icon indicates the feature is disabled or disconnected for that device.
- A colored icon indicates the feature is connected and active for that device.

Smart Notifications
While your device is connected to the Garmin Drive app, you can view notifications from your smartphone on your Garmin DriveSmart device, such as text messages, incoming calls, and calendar appointments.

NOTE: You may need to wait a few minutes to receive notifications on your navigation device after it connects to the Garmin Drive app. 📱 appears colored in the Bluetooth settings when smart notifications are connected and active (Bluetooth Feature Status Icons, page 12).

Receiving Notifications

**WARNING**
Do not read or reply to notifications while driving.

Before you can use this feature, your device must be connected to a supported phone running the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).

When you are viewing the map, new notifications appear in a map tool at the edge of the screen. If the device is moving, you must verify you are a passenger and not the driver before you can view notifications.

- To ignore a notification, select ✗, or wait for popup to expire. The popup closes, but the notification remains active on your phone.
- To view a notification, select Play Message. The device reads the notification using text-to-speech technology. This feature is not available for all languages.
- To listen to the notification, select Play Message. The device reads the notification using a voice command, say Play Message.

NOTE: This option is available only when the selected language supports the voice command feature and 🗣️ appears in the map tool.
- To perform additional actions, such as dismissing the notification from your phone, select View, and select an option.

NOTE: Additional actions are available for only some notification types and must be supported by the app generating the notification.

Viewing the List of Notifications
You can view a list of all active notifications.

1. Select Apps > Smart Notifications.
   The list of notifications appears. Unread notifications appear black, and previously read notifications appear gray.
2. Select an option:
   - To view a notification, select the notification description.
   - To listen to a notification, select 🎤.
   - The device reads the notification using text-to-speech technology. This feature is not available for all languages.

Going to an Address or Location Using the Garmin Drive App
You can use the Garmin Drive app to search for an address, business, or point of interest, and send it to your Garmin DriveSmart device for navigation.

1. From the Garmin Drive app, select Where To?.
2. Select an option:
   - To search for an address near you, enter the house number and street name.
   - To search for an address in another city, enter the house number, street name, city, and state.
   - To search for a business name, enter all or part of the name.
   - To search for a city, enter the city and state.
   As you type, suggestions appear below the search field.
3. Select a suggested search result. The app displays the location on a map.
4. Select Go! to start a route. The Garmin DriveSmart device starts navigating to the selected location, and the location is added to your recent searches in the Where To? menu.

Hands-Free Calling

NOTE: While most phones are supported and can be used, it cannot be guaranteed that a particular phone can be used. All features may not be available for your phone.
Using Bluetooth wireless technology, your device can connect to your mobile phone to become a hands-free device (*Live Services, Traffic, and Smartphone Features*, page 11). While connected, you can place or receive calls using your device.

**Placing a Call**

**Dialing a Number**
1. Select Apps > Phone > Dial.
2. Enter the number.
3. Select Dial.

**Calling a Contact in Your Phone Book**
Your phone book is loaded from your phone to the device each time your phone and the device connect. It may take a few minutes for the phone book to be available. Some phones do not support this feature.
1. Select Apps > Phone > Phone Book.
2. Select a contact.
3. Select Call.

**Calling a Location**
1. Select Apps > Phone > Browse Categories.
2. Select a point of interest.
3. Select Call.

**Receiving a Call**
When you receive a call, select Answer or Ignore.

**Using the Call History**
Your call history is loaded from your phone to the device each time your phone and the device connect. It may take a few minutes for the call history to be available. Some phones do not support this feature.
1. Select Apps > Phone > Call History.
2. Select a category.
   A list of calls appears, with the most recent calls at the top.
3. Select a call.

**Using In-Call Options**
While on a call, you can select in-call options from the map.
- To transfer audio to your phone, select ፉ.
  **TIP:** You can use this feature if you want to turn off your device and remain on the call, or if you need privacy.
- To use the dial pad, select ፙ.
  **TIP:** You can use this feature to use automated systems, such as voice mail.
- To mute the microphone, select ፧.
- To hang up, select ✏️.

**Saving a Home Phone Number**
**TIP:** After you save a home number, you can edit the home number by editing “Home” in your list of saved locations (*Editing a Saved Location*, page 6).
1. Select Apps > Phone > ⚖ > Set Home Number.
2. Enter your phone number.
3. Select Done.

**Calling Home**
Before you can call home, you must enter a phone number for your home location.
1. Select Apps > Phone > Call Home.

**Disconnecting a Bluetooth Device**
You can temporarily disconnect a Bluetooth device without deleting it from the paired devices list. The Bluetooth device can connect to your Garmin DriveSmart device automatically in the future.
1. Select Settings > Wireless Networks.
2. Select the device to disconnect.
3. Clear the check box next to the name of your paired device.

**Deleting a Paired Phone**
You can delete a paired phone to prevent it from automatically connecting to your device in the future.
1. Select Settings > Wireless Networks.
2. Select the phone, and select Unpair device.

**Traffic**

*NOTICE*
Garmin is not responsible for the accuracy or timeliness of the traffic information.

Your device can provide information about traffic on the road ahead or on your route. You can set your device to avoid traffic when calculating routes, and to find a new route to your destination if a large traffic delay occurs on your active route (*Traffic Settings*, page 17). The traffic map allows you to browse the map for traffic delays in your area.

To provide traffic information, your device must be receiving traffic data.
- Product models ending with MT can receive traffic data from an over-the-air broadcast signal using the built-in traffic receiver and the included vehicle power cable (*Receiving Traffic Data Using a Traffic Receiver*, page 13).
- All product models can receive subscription-free traffic data using the Garmin Drive app (*Receiving Traffic Data Using Your Smartphone*, page 13).

Traffic data is not available in all areas. For information about traffic coverage areas, go to garmin.com/traffic.

**Receiving Traffic Data Using Your Smartphone**
Your device can receive subscription-free traffic data while connected to a smartphone running the Garmin Drive app.
2. On your Garmin DriveSmart device, select Settings > Traffic, and verify the Traffic check box is selected.

**Receiving Traffic Data Using a Traffic Receiver**

*NOTICE*
Heated (metallized) windshields could degrade the performance of the traffic receiver.

A traffic receiver receives traffic data from an over-the-air broadcast signal, where available. To receive over-the-air traffic data, the device must be connected to vehicle power using a traffic-compatible power cable. A traffic receiver is included with some product models (*Traffic*, page 13).

Traffic data is not available in all areas. For information about traffic coverage areas, go to garmin.com/traffic.

Connect the device to vehicle power using the traffic compatible power cable (*Mounting and Powering the Garmin DriveSmart Device in Your Vehicle*, page 1).

If your product model includes traffic data, the vehicle power cable included with your device is traffic compatible.
When you are within a traffic coverage area, your device can display traffic information and help you avoid traffic delays.

**Traffic Receiver Subscriptions**
A regional traffic data subscription is included with most traffic receivers. You can add subscriptions for additional regions to your traffic receiver. For more information, go to [garmin.com/traffic](http://garmin.com/traffic).

**Viewing Traffic Subscriptions**
Select Settings > Traffic > Subscriptions.

**Adding a Subscription**
You can purchase traffic subscriptions for other regions or countries.
1. Select Settings > Traffic.
2. Select Subscriptions > .
3. Write down the FM traffic receiver unit ID.
   The traffic subscription code cannot be reused. You must obtain a new code each time you renew your service. If you own multiple FM traffic receivers, you must obtain a new code for each receiver.
5. Select Next on the device.
6. Enter the code.
7. Select Done.

**Enabling Traffic**
You can enable or disable traffic data.
1. Select Settings > Traffic.
2. Select the Traffic check box.

**Viewing Traffic on the Map**
The traffic map shows color-coded traffic flow and delays on nearby roads.
1. From the main menu, select Apps > Traffic.
2. If necessary, select > Legend to view the legend for the traffic map.

**Searching for Traffic Incidents**
1. From the main menu, select Apps > Traffic.
2. Select > Incidents.
3. Select an item in the list.
4. If there is more than one incident, use the arrows to view additional incidents.

**Voice Command**
NOTE: Voice command is not available for all languages and regions, and may not be available on all models.
NOTE: Voice Activated Navigation may not achieve desired performance when in a noisy environment.
Voice command allows you to use your device by saying words and commands. The voice command menu provides voice prompts and a list of available commands.

**Setting the Wakeup Phrase**
The wakeup phrase is a word or phrase you can say to activate voice command. The default wakeup phrase is OK Garmin.
TIP: You can reduce the chance of accidental voice command activation by using a strong wakeup phrase.
2. Enter a new wakeup phrase.
3. Say the line number of the location you want.
   The device displays the location on the map.
5. Say Navigate.
Muting Instructions
You can disable the voice prompts for voice command without muting the device.
1. Select Apps > Voice Command > Mute Instructions > Enabled.

Voice Control
For regions where the Voice Command feature is unavailable, the Voice Control feature is activated. Voice Control allows you to use your voice to control the device. Before you can use the Voice Control feature, you must configure it for your voice.

Configuring Voice Control
The Voice Control feature must be configured for a single user's voice and does not work for other users.
1. Select Apps > Voice Control.
2. Follow the on-screen instructions to record commands for each voice control phrase.
   NOTE: You do not have to read the exact phrase on the screen. You may say an alternative command with the same meaning based on your preference.

To use a voice control feature, you must say the command you recorded for the feature.

Using Voice Control
1. Say the command you recorded for the Voice Control phrase.
   The voice control menu appears.
2. Follow the on-screen instructions.

Voice Control Tips
- Speak in a normal voice directed at the device.
- Reduce background noise, such as voices, or the radio, to increase the accuracy of the voice recognition.
- Speak commands as they appear on the screen.
- Listen for a tone to confirm when the device successfully receives a command.

Using the Apps

Viewing the Owner's Manual on Your Device
You can view the complete owner's manual on the device screen in many languages.
   The owner's manual appears in the same language as the software text (Language and Keyboard Settings, page 18).
2. Select Q to search the owner's manual (optional).

Viewing the Weather Forecast
Before you can use this feature, your device must be receiving weather data. You can connect your device to the Garmin Drive app to receive weather data (Live Services, Traffic, and Smartphone Features, page 11).
1. Select Apps > Weather.
   The device shows the current weather conditions and a forecast for the next several days.
2. Select a day.
   The detailed forecast for that day appears.

Viewing Weather Near a Different City
1. Select Apps > Weather > Current Location.
2. Select an option:
   • To view weather for a favorite city, select Add City, and enter a city name.

Viewing the Weather Radar
Before you can use this feature, your device must be connected to a supported phone running the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).
2. Select ➤ to animate the radar map.

Viewing Weather Alerts
Before you can use this feature, your device must be connected to a supported phone running the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).

NOTE: This feature is not available in all areas.
While you are traveling with your device, weather alerts may appear on the map. You can also view a map of weather alerts near your current location or near a selected city.
1. Select Apps > Weather.
2. If necessary, select a city.

Checking Road Conditions
Before you can use this feature, your device must be connected to a supported phone running the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).
You can view weather-related road conditions for the roads in your area, on your route, or in another city.
1. Select Apps > Weather.
2. If necessary, select a city.
3. Select ➞ > Road Conditions.

Trip Planner
You can use the trip planner to create and save a trip, which you can navigate later. This can be useful for planning a delivery route, a vacation, or a road trip. You can edit a saved trip to further customize it, including reordering locations, optimizing the order of stops, adding suggested attractions, and adding shaping points.
You can also use the trip planner to edit and save your active route.

Planning a Trip
A trip can include many destinations, and it must include at least a starting location and one destination. The starting location is the location from which you plan to start your trip. If you start navigating the trip from a different location, the device gives you the option to route to your starting location first. For a round trip, the starting location and final destination can be the same.
1. Select Apps > Trip Planner > New Trip.
2. Select Select Start Location.
3. Choose a location for your starting point, and select Select.
4. Select Select Destination.
5. Choose a location for a destination, and select Select.
6. Select Add Location to add more locations (optional).
7. After you have added all the necessary locations, select Next > Save.
8. Enter a name, and select Done.

Editing and Reordering Locations in a Trip
1. Select Apps > Trip Planner > Saved Trips.
2. Select a saved trip.
3. Select a location.
Navigating to a Saved Trip

Before you can use this feature, your device must be connected to the Garmin Drive app (Live Services, Traffic, and Smartphone Features, page 11).

photoLive traffic cameras provide live images of traffic conditions on major roadways and intersections. The photoLive service is not available in all areas.

Viewing and Saving photoLive Traffic Cameras

You can view live images from nearby traffic cameras. You can also save traffic cameras for areas you travel frequently.

Before you can use this feature, you must enable the travel history feature (Device and Privacy Settings, page 18).

You can view your previous routes and places you have stopped on the map.

Select Apps > photoLive > Where I've Been.

Garmin DriveSmart Settings

Map and Vehicle Settings

Select Settings > Map & Vehicle.

Vehicle: Sets the vehicle icon that represents your position on the map.

Driving Map View: Sets the perspective on the map.

Map Detail: Sets the level of detail on the map. More detail may cause the map to draw slower.

Map Theme: Changes the color of the map data.

Map Tools: Sets the shortcuts that appear in the map tools menu.

Map Layers: Sets the data that appears on the map page (Customizing the Map Layers, page 10).

Auto Zoom: Automatically selects the zoom level for optimal use of your map. When disabled, you must zoom in or out manually.

myMaps: Sets which installed maps the device uses.

Enabling Maps

You can enable map products installed on your device.

TIP: To purchase additional map products, go to http://buy.garmin.com.

1 Select Settings > Map & Vehicle > myMaps.
2 Select a map.
Navigation Settings
Select Settings.
Route Preview: Shows a preview of the major roads in your route when you start navigation.
Calculation Mode: Sets the route calculation method.
Avoidances: Sets road features to avoid on a route.
Custom Avoidances: Allows you to avoid specific roads or areas.
Toll Roads: Sets preferences for avoiding toll roads.
Tolls and Fees: Sets preferences for avoiding toll roads and toll stickers.
NOTE: This feature is not available in all areas.
Environmental Zones: Sets the avoidance preferences for areas with environmental or emissions restrictions that may apply to your vehicle.
Restricted Mode: Disables all functions that require significant operator attention.
GPS Simulator: Stops the device from receiving a GPS signal, and saves battery power.

Calculation Mode Settings
Select Settings > Navigation > Calculation Mode.
The route calculation is based on road speeds and vehicle acceleration data for a given route.
Faster Time: Calculates routes that are faster to drive but can be longer in distance.
Shorter Distance: Calculates routes that are shorter in distance but can take more time to drive.
Off Road: Calculates a direct line from your location to your destination.

Setting a Simulated Location
If you are indoors or not receiving satellite signals, you can use the GPS simulator to plan routes from a simulated location.
1 Select Settings > Navigation > GPS Simulator.
2 From the main menu, select View Map.
3 Tap the map twice to select an area.
   The address of the location appears at the bottom of the screen.
4 Select the location description.
5 Select Set Location.

Wireless Network Settings
The wireless network settings allow you to manage Wi-Fi networks, paired Bluetooth devices, and Bluetooth features.
Select Settings > Wireless Networks.
Bluetooth: Enables Bluetooth wireless technology.
Paired Device Name: The names of paired Bluetooth devices appear in the menu. You can select a device name to change Bluetooth feature settings for that device.
Search for Devices: Searches for nearby Bluetooth devices.
Friendly Name: Allows you to enter a friendly name that identifies your device on other devices with Bluetooth wireless technology.
Wi-Fi: Enables the Wi-Fi radio.
Saved Networks: Allows you to edit or remove saved networks.
Search for Networks: Searches for nearby Wi-Fi networks (Connecting to a Wi-Fi Network, page 19).

Driver Assistance Settings
Select Settings > Driver Assistance.

Driver Alerts: Allows you to enable or disable alerts for upcoming zones or road conditions (Driver Awareness Features and Alerts, page 2).
Speeding Alert: Alerts you when you are exceeding the speed limit.
Proximity Alerts: Alerts you when you approach speed cameras or red light cameras.

Proximity Alerts Settings
NOTE: You must have custom points of interest (POIs) loaded for proximity points alerts to display.
NOTE: This feature is not available in all areas.
Select Settings > Driver Assistance > Proximity Alerts.
Audio: Sets the style of alert that plays when you approach proximity points.
Alerts: Sets the type of proximity points for which alerts are played.

Backup Camera Settings
The backup camera settings allow you to manage paired Garmin backup cameras and camera settings. This menu appears on your navigation device only when the device is connected to a wireless camera receiver cable. See the owner's manual for your backup camera for detailed information about pairing cameras and camera settings. Go to garmin.com/backcamera to purchase a Garmin backup camera.
Select Settings > Backup Camera, and select a paired camera.
Unpair: Removes the paired camera. You must pair the camera again before you can view it using this device and cable.
Rename: Allows you to rename the paired camera.
Guidance Lines: Shows or hides guidance lines and allows you to adjust the position of the guidance lines.

Display Settings
Select Settings > Display.
Color Mode: Allows you to select day or night color mode. If you select the Auto option, the device automatically switches to day or night colors based on the time of day.
Brightness: Allows you to adjust the display brightness.
Display Timeout: Allows you to set the amount of idle time before your device enters sleep mode while using battery power.
Screenshot: Allows you to take a picture of the device screen. Screenshots are saved in the Screenshot folder of the device storage.

Traffic Settings
From the main menu, select Settings > Traffic.
Traffic: Enables traffic.
Current Provider: Sets the traffic provider to use for traffic data. The Auto option selects the best available traffic data automatically.
Subscriptions: Lists the current traffic subscriptions.
Optimize Route: Enables the device to use optimized alternate routes automatically or upon request (Avoiding Traffic Delays on Your Route, page 8).
Traffic Alerts: Sets the traffic delay severity for which the device displays a traffic alert.

Units and Time Settings
To open the Units and Time settings page, from the main menu, select Settings > Units & Time.
Current Time: Sets the device time.
**Time Format:** Allows you to select a 12-hour, 24-hour, or UTC display time.

**Units:** Sets the unit of measure used for distances.

**Position Format:** Sets the coordinate format and datum used for geographical coordinates.

**Setting the Time**
1. From the main menu, select the time.
2. Select an option:
   - To set the time automatically using GPS information, select **Automatic**.
   - To set the time manually, drag the numbers up or down.

**Language and Keyboard Settings**
To open the Language and Keyboard settings, from the main menu, select **Settings > Language & Keyboard**.

**Voice Language:** Sets the language for voice prompts.

**Text Language:** Sets all on-screen text to the selected language.

**NOTE:** Changing the text language does not change the language of user-entered data or map data, such as street names.

**Keyboard Language:** Enables keyboard languages.

**Device and Privacy Settings**
Select **Settings > Device**.

**About:** Displays the software version number, the unit ID number, and information on several other software features.

**Regulatory:** Displays regulatory markings and information.

**EULAs:** Displays the end-user license agreements.

**NOTE:** You need this information when you update the system software or purchase additional map data.

**Device Data Reporting:** Shares anonymous data to improve the device.

**Travel History:** Allows the device to store a record of the places you go. This allows you to view the trip log, use the Where I’ve been feature, and use myTrends suggested routes.

**Reset:** Allows you to clear your travel history, reset settings, or delete all user data.

**Resetting Data and Settings**
The device offers several options for deleting your user data and resetting all settings to the factory default values.

1. Select **Settings > Device > Reset**.
2. Select an option:
   - To clear your travel history, select **Clear Travel History**. This option deletes all records of the places you have traveled. It does not delete saved locations or installed maps.
   - To reset all settings to the factory default values, select **Reset Default Settings**. This option does not delete any user data.
   - To delete all user data and reset all settings to the factory default values, select **Delete Data and Reset Settings**. This option deletes all user data, including your saved locations, recently found locations, and travel history. Installed maps are not deleted.

**Device Information**

**Viewing Regulatory and Compliance Information**
1. From the settings menu, swipe to the bottom of the menu.
2. Select **Device > Regulatory**.

**Charging the Device**

**NOTE:** This Class III product shall be powered by an LPS power supply.

You can charge the battery in the device using any of these methods.

- Connect the device to vehicle power.
- Connect the device to an optional power adapter accessory, such as a wall power adapter.

You can purchase an approved Garmin AC-DC adapter suitable for home or office use from a Garmin dealer or www.garmin.com. The device may charge slowly when connected to a third-party adapter.

**Device Maintenance**

**Garmin Support Center**
Go to support.garmin.com for help and information, such as product manuals, frequently asked questions, videos, and customer support.

**Map and Software Updates**
For the best navigation experience, you should keep the maps and software on your device up to date.

Map updates provide the newest available changes to roads and locations in the maps used by your device. Keeping maps up to date helps your device find recently added locations and calculate more accurate routes. Map updates are large and may take several hours to complete.

Software updates provide changes and improvements to the device features and operation. Software updates are small and take a few minutes to complete.

You can update your device using two methods.

- You can connect the device to a Wi-Fi network to update directly on the device (recommended). This option allows you to update your device conveniently without connecting it to a computer.
- You can connect the device to a computer and update it using the Garmin Express application (garmin.com/express). This option allows you to install map data onto a memory card if the updated maps are too large to fit on the internal storage.

You can connect the device to a computer and update it using the Garmin Express application (garmin.com/express).
Connecting to a Wi-Fi Network
The first time you turn on the device, it prompts you to connect to a Wi-Fi network and register your device. You can also connect to a Wi-Fi network using the settings menu.

1. Select Settings > Wireless Networks.
2. If necessary, select Wi-Fi to enable Wi-Fi technology.
3. Select Search for Networks.
   The device displays a list of nearby Wi-Fi networks.
4. Select a network.
5. If necessary, enter the password for the network, and select Done.
The device connects to the network, and the network is added to the list of saved networks. The device reconnects to this network automatically when it is within range.

Updating Maps and Software Using a Wi-Fi Network

**NOTICE**
Map and software updates may require the device to download large files. Regular data limits or charges from your Internet service provider apply. Contact your Internet service provider for more information about data limits or charges.

You can update the maps and software by connecting your device to a Wi-Fi network that provides access to the Internet. This allows you to keep your device up to date without connecting it to a computer.

1. Connect the device to a Wi-Fi network (Connecting to a Wi-Fi Network, page 19).
   While connected to a Wi-Fi network, the device checks for available updates. When an update is available,  appears on the Settings icon in the main menu.
2. Select Settings > Updates.
   The device checks for available updates. When an update is available, Update Available appears below Map or Software.
3. Select an option:
   • To install all available updates, select Install All.
   • To install only map updates, select Map > Install All.
   • To install only software updates, select Software > Install All.
4. Read the license agreements, and select Accept All to accept the agreements.
   **NOTE:** If you do not agree with the license terms, you can select Reject. This stops the update process. You cannot install updates until you accept the license agreements.
5. Using the included USB cable, connect the device to external power, and select Continue (Charging the Device, page 18).
   For the best results, a USB wall charger that provides at least 1 A power output is recommended. Many USB power adapters for smartphones, tablets, or portable media devices may be compatible.
6. Keep the device connected to external power and within range of the Wi-Fi network until the update process is complete.
   **TIP:** If a map update is interrupted or canceled before it completes, your device may be missing map data. To repair missing map data, you must update the maps again using either Wi-Fi or Garmin Express.

Updating Maps and Software with Garmin Express
You can use the Garmin Express application to download and install the latest map and software updates for your device.

1. If you do not have the Garmin Express application installed on your computer, go to garmin.com/express and follow the on-screen instructions to install it (Installing Garmin Express, page 19).
2. Open the Garmin Express application.
3. Connect your device to your computer using a mini-USB cable.
   The small end of the cable connects to the mini-USB port on your Garmin DriveSmart device, and the large end connects to an available USB port on your computer.
4. When your Garmin DriveSmart device prompts you to enter file transfer mode, select Yes.
5. In the Garmin Express application, click Add a Device.
   The Garmin Express application searches for your device and displays the device name and serial number.
6. Click Add Device, and follow the on-screen instructions to add your device to the Garmin Express application.
   When setup is complete, the Garmin Express application displays the updates available for your device.
7. Select an option:
   • To install all available updates, click Install All.
   • To install a specific update, click View Details, and click Install next to the update you want.
   The Garmin Express application downloads and installs the updates onto your device. Map updates are very large, and this process may take a long time on slower internet connections.
   **NOTE:** If a map update is too large for the internal storage of the device, the software may prompt you to install a microSD® card in your device to add storage space (Installing a Memory Card for Maps and Data, page 21).
8. Follow the on-screen instructions during the update process to finish installing updates.
   For example, during the update process, the Garmin Express application may instruct you to disconnect and reconnect your device.

Installing Garmin Express
The Garmin Express application is available for Windows® and Mac® computers.

1. On your computer, go to garmin.com/express.
2. Select an option:
   • To view the system requirements and verify the Garmin Express application is compatible with your computer, select System Requirements.
   • To install on a Windows computer, select Download for Windows.
   • To install on a Mac computer, select Download for Mac.
3. Open the downloaded file, and follow the on-screen instructions to complete the installation.
Device Care

**NOTICE**

Avoid dropping your device.

Do not store the device where prolonged exposure to extreme temperatures can occur, because it can cause permanent damage.

Never use a hard or sharp object to operate the touchscreen, or damage may result.

Do not expose the device to water.

**Cleaning the Outer Casing**

**NOTICE**

Avoid chemical cleaners and solvents that can damage plastic components.

1. Clean the outer casing of the device (not the touchscreen) using a cloth dampened with a mild detergent solution.
2. Wipe the device dry.

**Cleaning the Touchscreen**

1. Use a soft, clean, lint-free cloth.
2. If necessary, lightly dampen the cloth with water.
3. If using a dampened cloth, turn off the device and disconnect the device from power.
4. Gently wipe the screen with the cloth.

**Avoiding Theft**

- Remove the device and mount from sight when not in use.
- If using a dampened cloth, turn off the device and disconnect the device from power.
- Do not expose the device to water.
- If using a dampened cloth, turn off the device and disconnect the device from power.
- Do not keep your unit in the glove compartment.

**Restarting the Device**

You can restart your device if it stops functioning.

Hold the power key for 12 seconds.

**Removing the Device, Mount, and Suction Cup**

**Removing the Device from the Mount**

1. Press the release tab or button on the mount.
2. Tilt the bottom of the device upward, and lift the device from the mount.

**Removing the Mount from the Suction Cup**

1. Turn the device mount to the right or left.
2. Apply pressure until the socket on the mount releases the ball on the suction cup.

**Removing the Suction Cup from the Windshield**

1. Flip the lever on the suction cup toward you.
2. Pull the tab on the suction cup toward you.

**Changing the Fuse in the Vehicle Power Cable**

**NOTICE**

When replacing the fuse, do not lose any of the small pieces and make sure they are put back in the proper position. The vehicle power cable does not work unless it is assembled correctly.

If your device does not charge in your vehicle, you may need to replace the fuse located at the tip of the vehicle adapter.

1. Rotate the end piece counter clockwise to unlock it.

   ![Image](image.png)

   **TIP:** You may need to use a coin to remove the end piece.

2. Remove the end piece, the silver tip, and the fuse.
3. Insert a new fast-blow fuse that has the same current, such as 1 A or 2 A.
4. Place the silver tip in the end piece.
5. Push in the end piece and rotate it clockwise to lock it back into the vehicle power cable.

**Troubleshooting**

**The suction cup will not stay on my windshield**

1. Clean the suction cup and windshield with rubbing alcohol.
2. Dry with a clean, dry cloth.
3. Mount the suction cup (Mounting and Powering the Garmin DriveSmart Device in Your Vehicle, page 1).

**My device is not acquiring satellite signals**

- Verify the GPS simulator is turned off (Navigation Settings, page 17).
- Take your device out of parking garages and away from tall buildings and trees.
- Remain stationary for several minutes.

**The device does not charge in my vehicle**

- Check the fuse in the vehicle power cable (Changing the Fuse in the Vehicle Power Cable, page 20).
- Verify the vehicle is turned on and is supplying power to the power outlet.
- Verify the interior temperature of the vehicle is within the charging temperature range indicated in the specifications.
- Verify the fuse is not broken in the vehicle power outlet.

**My battery does not stay charged for very long**

- Decrease the screen brightness (Display Settings, page 17).
- Shorten the display timeout (Display Settings, page 17).
- Decrease the volume (Adjusting the Volume, page 2).
- Turn off the wi-fi radio when it is not in use (Wireless Network Settings, page 17).
- Put the device in power saving mode when not in use (Turning the Device On or Off, page 1).
- Keep your device away from extreme temperatures.
- Do not leave your device in direct sunlight.

**My device does not connect to my phone**

- Select Settings > Wireless Networks.
  The Bluetooth option must be enabled.
- Enable Bluetooth wireless technology on your phone and bring your phone within 10 m (33 ft.) of the device.
- Verify your phone is compatible.
  Go to [www.garmin.com/bluetooth](http://www.garmin.com/bluetooth) for more information.
- Complete the pairing process again.
To repeat the pairing process, you must unpair your phone and device (Deleting a Paired Phone, page 13), and complete the pairing process (Live Services, Traffic, and Smartphone Features, page 11).

Appendix

Installing a Memory Card for Maps and Data
You can install a memory card to increase the storage space for maps and other data on your device. You can purchase memory cards from an electronics supplier, or go to www.garmin.com/maps to purchase a memory card with pre-loaded Garmin mapping software. The device supports microSD memory cards from 4 to 32 GB.

1 Locate the map and data memory card slot on your device (Garmin DriveSmart 55/65 Device Overview, page 1).
2 Insert a memory card into the slot.
3 Press it in until it clicks.

Data Management
You can store files on your device. The device has a memory card slot for additional data storage.

NOTE: The device is not compatible with Windows 95, 98, Me, Windows NT®, and Mac OS 10.3 and earlier.

About Memory Cards
You can purchase memory cards from an electronics supplier, or purchase pre-loaded Garmin mapping software (www.garmin.com). In addition to map and data storage, the memory card can be used to store files such as maps, images, geocaches, routes, waypoints, and custom POIs.

Connecting the Device to Your Computer
You can connect the device to your computer using a USB cable.

1 Plug the small end of the USB cable into the port on the device.
2 Plug the larger end of the USB cable into a port on your computer.
3 When your Garmin DriveSmart device prompts you to enter file transfer mode, select Yes.
   A picture of your device connected to a computer appears on the device screen.
   Depending on your computer operating system, the device appears as either a portable device, a removable drive, or a removable volume.

Transferring Data From Your Computer
1 Connect the device to your computer (Connecting the Device to Your Computer, page 21).
   Depending on your computer operating system, the device appears as either a portable device, a removable drive, or a removable volume.
2 On your computer, open the file browser.
3 Select a file.
4 Select Edit > Copy.
5 Browse to a folder on the device.
   NOTE: For a removable drive or volume, you should not place files in the Garmin folder.
6 Select Edit > Paste.

Disconnecting the USB Cable
If your device is connected to your computer as a removable drive or volume, you must safely disconnect your device from your computer to avoid data loss. If your device is connected to your Windows computer as a portable device, it is not necessary to safely disconnect the device.

1 Complete an action:
   • For Windows computers, select the Safely Remove Hardware icon in the system tray, and select your device.
   • For Apple® computers, select the device, and select File > Eject.
2 Disconnect the cable from your computer.

Viewing GPS Signal Status
Hold ,| for three seconds.

Purchasing Additional Maps
1 Go to your device product page at garmin.com.
2 Click the Maps tab.
3 Follow the on-screen instructions.

Purchasing Accessories
Go to garmin.com/accessories.

IMPORTANT SAFETY AND PRODUCT INFORMATION

⚠️ WARNING
Failure to heed the following warnings could result in an accident or collision resulting in death or serious injury.

Distraction Warning
This device is intended to enhance the situational awareness when used properly. If used improperly, you could become distracted by the display, which could lead to an accident causing serious personal injury or death. Only access the information displayed on the device with a glance. Always maintain awareness of your surroundings and do not stare at the display or become distracted by the display. Focusing on the display could cause you to miss obstacles or hazards. Use the device at your own risk.

Vehicle Installation Warnings
- When installing the device in a vehicle, do not place the device where it obstructs the driver’s view of the road or interferes with vehicle operating controls, such as the steering wheel, foot pedals, or transmission levers. Do not place unsecured on the vehicle dashboard. Do not place the device in front of or above any airbag.

- The windshield mount may not stay attached to the windshield in all circumstances. Do not place the mount where it will become a distraction if it should become detached. Keep your windshield clean to help ensure that the mount stays on the windshield.

Street Navigation Warnings
If your Garmin device accepts street maps and suggests routes that follow roads, follow these guidelines to ensure safe on-road navigation.
- Always use your best judgment, and operate the vehicle in a safe manner. Do not become distracted by the device while driving, and always be fully aware of all driving conditions. Minimize the amount of time spent viewing the device screen while driving.

- Do not input destinations, change settings, or access any functions requiring prolonged use of the device controls while driving. Pull over in a safe and legal manner before attempting such operations.
- When navigating, carefully compare information displayed on the device to all available navigation sources, including road signs, road closures, road conditions, traffic congestion, weather conditions, and other factors that may affect safety while driving. For safety, always resolve any discrepancies before continuing navigation, and defer to posted signs and conditions.
- The device is designed to provide route suggestions. It is not a replacement for driver attentiveness and good judgment. Do not follow route suggestions if they suggest an illegal maneuver or would place the vehicle in an unsafe situation.

Battery Warnings
A lithium-ion battery can be used in this device. If these guidelines are not followed, batteries may experience a shortened life span or may present a risk of damage to the device, fire, chemical burn, electrolyte leak, and/or injury.
- Do not disassemble, modify, remanufacture, puncture or damage the device or batteries.
- Do not remove or attempt to remove the non-user-replaceable battery.
- Do not expose the device or batteries to fire, explosion, or other hazard.

Magnet Warning
Both the device and its mount may contain magnets. Under certain circumstances, magnets may cause interference with some internal medical devices, including pacemakers and insulin pumps. Devices and mounts that contain magnets should be kept away from such medical devices.

NOTICE
Failure to heed the following notice could result in personal or property damage, or negatively impact the device functionality.

Windshield Mounting Legal Restrictions
Before using the device on your windshield, check the state and local laws and ordinances where you drive. Some state laws prohibit or restrict the
placement of objects on the windshield of a motor vehicle. IT IS THE
USER'S RESPONSIBILITY TO MOUNT THE DEVICE IN COMPLIANCE
WITH ALL APPLICABLE LAWS AND ORDINANCES. Where required, other
Garmin dashboard or friction mount options should be used. Always mount
your Garmin device in a location that does not obstruct the driver's view of
the road. Garmin does not assume any responsibility for any fines, penalties,

or damages that may be incurred as a result of any state or local law or
ordinance relating to the use of your Garmin device.

Battery Notices
- Do not immerse or expose the device or batteries to water or other liquids.
- Do not leave the device exposed to a heat source or in a high-temperature
location, such as in the sun in an unattended vehicle. To prevent the
possibility of damage, remove the device from the vehicle or store it out of
direct sunlight, such as in the glove box.
- Do not operate the device outside of the following temperature range: from
-20° to 55°C (from -4° to 131°F).
- When storing the device for an extended time period, store within the
following temperature range: from 0° to 25°C (from 32° to 77°F).
- Do not use a power and/or data cable that is not approved or supplied by
Garmin.
- Contact your local waste disposal department to dispose of the device/
batteries in accordance with applicable local laws and regulations.

Speed Limit Notice
The speed limit feature is for information only and does not replace the
driver’s responsibility to abide by all posted speed limit signs and to use safe
driving judgment at all times. Garmin will not be responsible for any traffic
fines or citations that you may receive for failing to follow all applicable traffic
laws and signs.

Magnet Notice
Both the device and its mount may contain magnets. Under certain
circumstances, magnets may cause damage to some electronic devices,
including hard drives in laptop computers. Use caution when devices and
mounts that contain magnets are near electronic devices.

GPS Notice
The navigation device may experience degraded performance if you use it in
proximity to any device that uses a terrestrial broadband network operating
close to the frequencies used by any Global Navigation Satellite System
(GNSS), such as the Global Positioning Service (GPS). Use of such devices
may impair reception of GNSS signals.

Product Environmental Programs
Information about the Garmin product recycling program and WEEE, RoHS,
REACH, and other compliance programs can be found at www.garmin.com
/aboutGarmin/environment.

Declaration of Conformity
Hereby, Garmin declares that this product is in compliance with the Directive
2014/53/EU. The full text of the EU declaration of conformity is available at
the following internet address: www.garmin.com/compliance.

Innovation, Science and Economic Development Canada Compliance
This device complies with Innovation, Science and Economic Development
Canada license-exempt RSS standard(s). Operation is subject to the
following two conditions: (1) this device may not cause interference, and (2)
this device must accept any interference, including interference that may
cause undesired operation of the device.

Radio Frequency Radiation Exposure
This device is a mobile transmitter and receiver that uses an internal antenna
to send and receive low levels of radio frequency (RF) energy for data
communications. The device emits RF energy below the published limits
when operating in its maximum output power mode and when used with
Garmin authorized accessories. To comply with RF exposure compliance
requirements, the device should be installed and operated with a minimum of
5 mm (0.2 in.) between the device and your body. The device should not be
used in other configurations. This device must not be co-located or operated
in conjunction with any other transmitter or antenna.

FCC Compliance
This device complies with part 15 of the FCC Rules. Operation is subject to

the following two conditions: (1) this device may not cause harmful
interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and may cause harmful interference to radio communications if not installed and used in accordance with the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet that is on a different circuit from the GPS device.
- Consult the dealer or an experienced radio/TV technician for help.

This product does not contain any user-serviceable parts. Repairs should only be made by an authorized Garmin service center. Unauthorized repairs or modifications could result in permanent damage to the equipment, and void your warranty and your authority to operate this device under Part 15 regulations.

Map Data Information
Garmin uses a combination of governmental and private data sources. Virtually all data sources contain some inaccurate or incomplete data. In some countries, complete and accurate map information is either not available or is prohibitively expensive.

Limited Warranty
This limited warranty gives you specific legal rights, and you may have other legal rights, which vary from state to state (or by country or province). Garmin does not exclude, limit or suspend other legal rights you may have under the laws of your state (or country or province).

FOR A FULL UNDERSTANDING OF YOUR RIGHTS YOU SHOULD CONSULT THE LAWS OF YOUR STATE, COUNTRY OR PROVINCE.

Non-aviation products are warranted to be free from defects in materials or workmanship for one year from the date of purchase. Within this period, Garmin will, at its sole option, repair or replace any components that fail in normal use. Such repairs or replacement will be made at no charge to the customer for parts or labor, provided that the customer shall be responsible for any transportation cost. This Limited Warranty does not apply to: (i) cosmetic damage, such as scratches, nicks and dents; (ii) consumable parts, such as batteries, unless product damage has occurred due to a defect in materials or workmanship; (iii) damage caused by accident, abuse, misuse, water, flood, fire, or other acts of nature or external causes; (iv) damage caused by service performed by anyone, who is not an authorized service provider of Garmin; (v) damage to a product that has been modified or altered without the written permission of Garmin, or (vi) damage to a product that has been connected to power and/or data cables that are not supplied by Garmin. In addition, Garmin reserves the right to refuse warranty claims against products or services that are obtained and/or used in contravention of the laws of any country. Garmin navigation products are intended to be used only as a travel aid and must not be used for any purpose requiring precise measurement of direction, distance, location or topography. Garmin makes no warranty as to the accuracy or completeness of map data.

This Limited Warranty also does not apply to, and Garmin is not responsible for, any degradation in the performance of any Garmin navigation product resulting from its use in proximity to any handset or other device that utilizes a terrestrial broadband network operating on frequencies that are close to the frequencies used by any Global Navigation Satellite System (GNSS) such as the Global Positioning Service (GPS). Use of such devices may impair reception of GNSS signals.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE WARRANTIES AND REMEDIES CONTAINED IN THIS LIMITED WARRANTY ARE EXCLUSIVE AND IN LIEU OF, AND GARMIN EXPRESSLY DISCLAIMS, ALL OTHER WARRANTIES AND REMEDIES, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF
MERCHANDABILITY OR FITNESS FOR A PARTICULAR PURPOSE, STATUTORY REMEDY OR OTHERWISE. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER LEGAL RIGHTS, WHICH VARY FROM STATE TO STATE AND FROM COUNTRY TO COUNTRY. IF IMPLIED WARRANTIES CANNOT BE DISCLAIMED UNDER THE LAWS OF YOUR STATE OR COUNTRY, THEN SUCH WARRANTIES ARE LIMITED IN DURATION TO THE DURATION OF THIS LIMITED WARRANTY. SOME STATES (AND COUNTRIES AND PROVINCES) DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

IN NO EVENT SHALL GARMIN BE LIABLE IN A CLAIM FOR BREACH OF WARRANTY FOR ANY INCIDENTAL, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES, WHETHER RESULTING FROM THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT OR FROM DEFECTS IN THE PRODUCT. SOME STATES (AND COUNTRIES AND PROVINCES) DO NOT ALLOW THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

If during the warranty period you submit a claim for warranty service in accordance with this Limited Warranty, then Garmin will, at its option: (i) repair the device using new parts or previously used parts that satisfy Garmin's quality standards, (ii) replace the device with a new device or a refurbished device that meets Garmin's quality standards, or (iii) exchange the device for a full refund of your purchase price. SUCH REMEDY SHALL BE YOUR SOLE AND EXCLUSIVE REMEDY FOR ANY BREACH OF WARRANTY. Repaired or replaced devices have a 90 day warranty. If the unit sent in is still under its original warranty, then the new warranty is 90 days or to the end of the original 1 year warranty, whichever is longer.

Before seeking warranty service, please access and review the online help resources available on support.garmin.com. If your device is still not functioning properly after making use of these resources, contact a Garmin Authorized service facility in the original country of purchase or follow the instructions on support.garmin.com to obtain warranty service. If you are in the United States, you can also call 1-800-880-1020.

If you seek warranty service outside of the original country of purchase, Garmin cannot guarantee that the parts and products needed to repair or replace your product will be available due to differences in product offerings and applicable standards, laws and regulations. In that case, Garmin may, in its sole discretion and subject to applicable laws, repair or replace your product with comparable Garmin products and parts, or require you to ship your product to a Garmin Authorized service facility in the country of original purchase or to a Garmin Authorized service facility in another country that can service your product, in which case you will be responsible for complying with all applicable import and export laws and regulations and for paying all custom duties, V.A.T., shipping fees and other associated taxes and charges. In some cases, Garmin and its dealers may be unable to service your product in a country outside of the original country of purchase or return a repaired or replaced product to you in that country due to applicable standards, laws or regulations in that country.

Online Auction Purchases: Products purchased through online auctions are not eligible for rebates or other special offers from Garmin warranty coverage. Online auction confirmations are not accepted for warranty verification. To obtain warranty service, an original or copy of the sales receipt from the original retailer is required. Garmin will not replace missing components from any package purchased through an online auction.

International Purchases: A separate warranty may be provided by international distributors for devices purchased outside the United States depending on the country. If applicable, this warranty is provided by the local in-country distributor and this distributor provides local service for your device. Distributor warranties are only valid in the area of intended distribution.

Australian Purchases: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. The benefits under our Limited Warranty are in addition to other rights and remedies under applicable law in
related to the products. Garmin Australasia, 30 Clay Place, Eastern Creek, NSW 2766, Australia. Phone: 1800 235 822.
